

- ١ Social development

During the first two yrs of life, a child is largely preoccupied with developing a working understanding of the physical self and his physical environment. During this period he discovers the boundaries that separate him from the world around him, he learns that rugs and that concrete sidewalks are hard; falling down, he finds, easier than climbing up.

- ٢ The five daily prayers

perform his five One of the fundamentals duties of a Muslim is to helps to daily prayers. Prayers were established in Islam because it keep one from evil. Prayers achieve the unification of all Muslims gather five times daily prayers in the mosque. This diminishes social Differences and establishes the principle of equality social relations.
