Winter, fall, and spring have many advantages  
However, summertime is my favorite season because it offers the tranquility of the beach as well as the exhilaration of outdoor sports  
First, sitting on the other side of a sand dune, hidden by sea oats and sedge, I like looking at the Atlantic Ocean, scanning for dolphins and pelicans  
Looking at something larger than I am gives me a sense of awe and gratitude and provides a backdrop for some deep musings  
Second, summertime provides me with the chance to go sailing, surfing, and hiking along the shore  
The exercise enhances my sense of well being and creates a feeling of optimism

Much of Canada's forestry production goes towards making pulp and paper  
According to the Canadian Pulp and Paper Association, Canada supplies 34% of the world's wood pulp and 49% of its newsprint paper  
If these paper products could be produced in some other way, Canadian forests could be preserved. Recently  
a possible alternative way of producing paper has been suggested by agriculturalists and environmentalists: a plant called hemp

4) What drug can be obtained from a relative of hemp ?

- Cocaine

However, there is a problem: hemp is illegal in many countries of the world. This plant, so useful for fibre, rope, oil, fuel and textiles  
is a species of cannabis, related to the plant from which marijuana is produced. In the late 1930s  
a movement to ban the drug marijuana began to gather force  
resulting in the eventual banning of the cultivation not only of the plant used to produce the drug, but also of the commercial fibre-producing hemp plant  
Although both George Washington and Thomas Jefferson grew hemp in large quantities on their own land  
any American growing the plant today would soon find himself in prison - despite the fact that marijuana cannot be produced from the hemp plant  
since it contains in the drug
