الأسئلة

1 :1) The systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions.

- Methods
- **Research**
- Design

2 :2) Research is

- **Systematic**
- Haphazard
- Random

3 :3) if we do Research we must get..... related to the materiel

- no result
- Success
- **result**

4 :4) the first step of doing the Research is

- **feeling problem**
- feeling of responsibility
- feeling of presence

5 :5) for doing research, after feeling the problem you should

- look up for what will happened
- start Think about the result first
- **investigate for the solutions of the problem**

6 :6) To do investigating the solutions of the problem, you need to

- Solve the problem quickly
- **gather some data first**
- Imagine you write a poem

7 :7) get from Research fact and conclusions or solutions of our problem through collecting some materials and data from.....

- Only two sources
- One source only
- **different sources**

8 :8) where can we collect materials and data to get from Research fact and conclusions or solutions of our problem

- Only two sources •
- One source only •
- different sources •**

9 :9) A particular procedure for accomplishing or approaching something, esp. a systematic or established one

- Research •
- Methods •**
- Design •

10 : 10) what kind of methods to do research?

- Qualitative method •
- Quantitative method •

a or b can be used to do research and it depends on what kind of research •

11 : 11) Producing number from research is called approach or methods

- Qualitative •
- Quantitative •**
- Differentative •

12 : 12) Producing Theoretical and philosophical from research is called approach or methods. (I'm NOT looking for number in my research)

- Qualitative •**
- Quantitative •
- Differentative •

13 : 13) From theI can design my research

- Design •
- Research •
- Methods •**

14 : 14) It is a logical structure of the inquiry

- Design •**
- Research •
- Methods •

15 : 15) describing the situation without result is type of research called

- Explanatory •
- Ethnographic •
- Descriptive •**

16 : 16) explain the reasons is type of research called

- Explanatory •**
- Ethnographic •
- Descriptive •

17 : 17) The branch of anthropology that scientifically describes specific human cultures and societies

- Explanatory •
- Ethnographic •**
- Descriptive •

18 : 18) it's Widely used in science, biology, chemistry, etc

Experimental •

Action research •

Case study •

19 : 19) collect data through some tools and you quantify them.

Qualitative •

Quantitative •

Differentative •

20 : 20) Research is

Looking for knowledge only •

Looking for data only •

Looking for new ideas and findings •
