

3	درجة الواجب الحاصل عليها:
:Research is	
Looking for knowledge only <input type="radio"/>	
Looking for data only <input type="radio"/>	
Looking for new ideas and findings <input checked="" type="radio"/>	
Looking for previous studies <input type="radio"/>	
An Abstract is	
A summary of the whole thing <input checked="" type="radio"/>	
A summary of the whole results <input type="radio"/>	
A summary of the whole literature review <input type="radio"/>	
A summary of the whole methodology <input type="radio"/>	
A good classical report will consist of	
Abstract- methodology- results-introduction <input type="radio"/>	
Abstract-literature review- results-introduction <input type="radio"/>	
Abstract-introduction-literature review-methodology-results <input checked="" type="radio"/>	
Abstract-results-introduction-literature review <input type="radio"/>	

حل الواجب الثاني :

3	درجة الواجب الحاصل عليها:
In the introduction	
You introduce the results <input type="radio"/>	
You introduce the study and its significance <input checked="" type="radio"/>	
You introduce all previous studies and a critique for them <input type="radio"/>	
You introduce all the methods and instruments you used <input type="radio"/>	
In the literature review	
You talk about the results <input type="radio"/>	
You talk about the study and its significance <input type="radio"/>	
You talk about all previous studies and a critique for them <input checked="" type="radio"/>	
You talk about all the procedures used <input type="radio"/>	
Plagiarism is	
Representing other authors' language and ideas as your own original work <input checked="" type="radio"/>	
Representing your own language and ideas as your own original work <input type="radio"/>	
Representing other authors' language and ideas as their own original work <input type="radio"/>	
Representing other authors' language and ideas as a plagiarised work <input type="radio"/>	

حل الواجب الثالث:

The dependent variable is

The variable that is affected by the independent variable

The variable that is dependent on the hypothesis

The variable that is affected by the abstract

The variable that is affected by the results

:The significant difference has to be at the level of

P= 50

P=.05

P=.50

P=0.50

:If you have one variable in your research, then it is

Multivariate

Univariate

Bivariate

factorial

:We use questionnaires in research as a

tool to collect data

tool to analyse data

tool to generate results

tool to design research

تجميع/أختكم ملاك ..أسأل الله التوفيق لي ولكم في الدارين..
