- volunteer
  - worker
  - teenager
  - pilot
50. You are \_\_\_\_\_ because everybody knows about you.
- sick
  - a player
  - a driver
  - famous

### Question3:

#### (A) Reading Comprehension 1: Read the following passage and answer the questions below.

Marriage is often not easy. Maybe man and woman love each other, but they argue . They get angry. Later they apologize, but it happens again and again. What's the problem? Are men and women really very different.

Deborah Tannen says yes, men and women are very different. Tannen teaches at Georgetown University in Washington, D.C. She writes books about the ways people talk. She believes that men and women talk- and think- in different ways. She tells about some differences in her book, You Just Don't Understand.

The differences, Tannen says, begin when men and women are children. Very young boys and girls are similar to each other. In other words, they like many of the same things and play in the same ways. They aren't very different. But then there is a change. When children in the United States are five or six years old, boys usually play in large groups. One boy gives orders . For example, he says, " Take this," " Go over there". He is the leader. Boys also brag . In other words, they say good thing about themselves. But girls there usually play in small groups or with one other girl. A girl's best friend is her very good friend and important to her. Girls often don't give orders; they give suggestions.

51. \_\_\_\_\_ gives orders while playing in groups.
- A boy
  - A man
  - A women
  - A girl

52. Where does Deborah Tannen work? \_\_\_\_\_
- At university
  - At hospital
  - At school

54. The underlined word “brag” means \_\_\_\_\_.
- laugh
  - cry
  - play
  - talk proudly
55. The underlined pronoun “she” refers to \_\_\_\_\_.
- woman.
  - a girl
  - man
  - Deborah Tennen
56. Who gives suggestions? \_\_\_\_\_
- Deborah Tennen
  - The men
  - Boys
  - Girls
57. A word in paragraph ONE which has the opposite meaning of “similar” is \_\_\_\_\_
- problem
  - different
  - angry
  - apologize
58. Which country does Deborah live in? \_\_\_\_\_
- Saudi Arabia
  - United States of America
  - Europ
  - Japan
59. The underlined pronoun “they” refers to \_\_\_\_\_
- women
  - young boys and girls
  - boys
  - men
60. The underlined word “argue” means \_\_\_\_\_
- discuss angrily
  - speak slowly
  - cry loudly
  - listen carefully

## B: Reading Comperhension 2:

## القطعة تتحدث عن نبات الصبار الصحراوي

The cactus is a plant which grows in very hot, dry places. They do not have leaves. Instead,<sup>61</sup>they have spiny needles which stick out of their stems. There are many shapes of the cactus.<sup>66</sup>Some are small and round.<sup>64</sup>Others are tall like columns or pillars. Some are shaped like tubes or bells. Some are shaped like wheels. Some grow as trees or shrubs. Others grow as ground cover. Cactus flowers are big,<sup>66</sup>and some of them bloom at night. Their flowers come out at night because they are pollinated by insects or small animals that come out at night.<sup>68</sup>Insects and small animals carry pollen from one cactus to another.

<sup>67</sup>Most cacti live in North and South America. Others live in Africa, Madagascar, and Sri Lanka. Cacti do not have very large leaves because large leaves would allow the water to evaporate. When water evaporates,<sup>62</sup>it changes from a liquid to a gas. When it becomes a gas, it is light enough to move through the air. That would be bad for the cactus because the cactus needs the water to live.

Some cacti have waxy coatings on their stems,<sup>65</sup>so that water will run down the stem to the roots.<sup>63</sup>Cacti can absorb water from fog in the air, since it does not rain very much in the desert. Most cacti have long roots which can spread out close to the surface so they can absorb a lot of water on the occasions when it rains.

61. what do cactus have instead of leaves?

- A. Needles
- B. Tubes
- C. stems
- D. pillars

62. When water evaporates it, .....

- A. changes from liquid to gas
- B. changes from liquidi to solid
- C. changes from gas to liquid
- D. is absorbed by the stem of the cactus

63. A synonym for "absorb" is .....

- A. eat
- B. drink
- C. soak up
- D. customer

64. pillars are

- A. Long tubes and small balls
- B. long tubes.
- C. small balls
- D. tall columns

65. Cacti prevent evaporation of water by...

- A. growing deep roots
- B. growing large leaves
- C. growing small stems
- D. growing small leaves

66. Some cacti
- A. Bloom at night and grows as vines
  - B. bloom at night
  - C. grow as vines
  - D. grow as shrubs
67. Where do most cacti grow?
- A. Southern Europe
  - B. Asia
  - C. Antarctica
  - D. North and South America.
68. When cacti are pollinated their pollen....
- A. is carried from one cactus to another
  - B. is eaten by small animals
  - C. is eaten by insects
  - D. Is eaten by insects and small animals.
69. How are cacti shaped?
- A. Like wheels.
  - B. Like balls
  - C. Like tubes
  - D. Like tubes, balls and wheels
70. When cacti bloom...
- A. their flowers fall off
  - B. they are eaten by small animals
  - C. their flowers come out
  - D. they are eaten by insects.

  - A. cheapest than
  - B. cheaper
  - C. cheap than
  - D. cheaper than

Families in almost every country are changing. This is true in rich countries and poor ones. It is true in Africa, the Americas, Asia and Europe. All over the world, families are getting smaller.

In North Africa , in the past, many people lived in extended families. Fifty to hundred people lived together in a group of houses.

These were all family members- grandparents, aunts, uncles, cousins, children, and grandchildren. But now this traditional family is breaking into smaller groups.

The traditional family in Mexico was also big. One generation ago, the average Mexican woman had seven children. Today, she has an average of only 2.5 children. Now , without so many children, families don't need to spend so much money on basics, such as food, clothing and housing.

17. What happened to the traditional family? \_\_\_\_\_
- getting larger
  - breaking into smaller groups
  - became rich
  - had no children
18. Food and clothing are \_\_\_\_\_

  - D. beated
3. " All players \_\_\_\_\_ now for the next match" Coach said.
  - A. is runing
  - B. are runing
  - C. run
  - D. are running

My name is Elena Sanchez. I am from Mexico, but now I live in California. I'm a student here in English language classes at a small college. I live in an apartment building. It's on the corner of Olive Street and Sycamore Avenue. My address is 2201 Olive Street. There's a big olive tree in front of the building. There's a park across the street. There are a lot of oak trees in the park. The trees are beautiful in the summer. A lot of my neighbours are from different countries. The people next to me are from Indonesia. The family across from the Indonesian family is from Colombia. The stores in this neighbourhood are always busy. There's a Korean drugstore. There are three restaurants on Olive Street: One Mexican, one Japanese, and one Moroccan-Italian-American. I like my neighbourhood, but I ask myself one question. Where are the Americans?!!!

4. Where is Elena from?
  - A. California
  - B. Olive Street
  - C. Korea
  - D. Mexico
5. When are California tress beautiful?
  - A. In the winter

- A. report
  - B. reportes
  - C. reports
  - D. reporting

Yellowstone National Park is in the U.S. states of Wyoming, Idaho, and Montana. It became the first National Park in 1872. There are geysers and hot springs at Yellowstone. There are also many animals at Yellowstone. There are elk, bison, sheep, grizzly bears, black bears, moose, coyotes, and more. More than 3 million people visit Yellowstone National Park each year. During the winter, visitors can ski or go snowmobiling there. There are also snow coaches that give tours. Visitors can see steam (vapor water) come from the geysers. During other seasons, visitors can go boating or fishing. People can ride horses there. There are nature trails and tours. Most visitors want to see Old Faithful, a very predictable geyser at Yellowstone. Visitors can check a schedule to see the exact time that Old Faithful is going to erupt. There are many other geysers and boiling springs in the area. Great Fountain Geyser erupts every 11 hours. Excelsior Geyser produces 4,000 gallons of boiling water each minute! Boiling water is 100 degrees Celsius, or 212 degrees Fahrenheit — that's very hot! People also like to see the Grand Prismatic Spring. It is the largest hot spring in the park. It has many beautiful colors. The beautiful colors are caused by bacteria in the water. These are forms of life that have only one cell. Different bacteria live in different water temperatures. Visiting Yellowstone National Park can be a week—long vacation or more. It is beautiful, and there are activities for everyone.

29. Old faithful is...
- river
  - trail
  - passage
  - geyser
30. Boiling water is.....
- 0 degrees C .or 32 degrees F.
  - 100 degrees C. or 212 degrees F.
  - very hot
  - Both B and C are correct

  - B. a little
  - C. few
  - D. a few
40. when someone becomes too fat, it means that he or she has
- A. poorness
  - B. overweight
  - C. disease
  - D. hardship

### Pulp Friction

Every second, 1 hectare of the world's rainforest is destroyed. That's equivalent to two football fields. An area the size of New York City is lost every day. In a year, that adds up to 31 million hectares -- more than the land area of Poland. This alarming rate of destruction has serious consequences for the environment; scientists estimate, for example, that 137 species of plant, insect or animal become extinct every day due to logging. In British Columbia, where, since 1990, thirteen rainforest valleys have been clearcut, 142 species of salmon have already become extinct, and the habitats of grizzly bears, wolves and many other creatures are threatened. Logging, however, provides jobs, profits, taxes for the government and cheap products of all kinds for consumers, so the government is reluctant to restrict or control it. Much of Canada's forestry production goes towards making pulp and paper. According to the Canadian Pulp and Paper Association, Canada supplies 34% of the world's wood pulp and 49% of its newsprint paper. If these paper products could be produced in some other way, Canadian forests could be preserved. Recently, a possible alternative way of producing paper has been suggested by agriculturalists and environmentalists: a plant called hemp.

41. How many species of salmon have become extinct in BC?
  - A. 27
  - B. 31
  - C. 137
  - D. 142
42. How much of the world's newsprint paper is supplied by Canada?
  - A. 31%
  - B. 49%
  - C. 34%
  - D. 19%
43. A hemp is.....
  - A. paper
  - B. an animal
  - C. a plant
  - D. a forecast
44. we talked about Islam tolerance \_\_\_\_\_ Independence Day, \_\_\_\_\_ sunrise.

 D. garage
16. We \_\_\_\_\_ to launch. We had a \_\_\_\_\_. It was very delicious.  
 A. go  
 B. went  
 C. goes  
 D. gone

Marriage is often not easy. Maybe man and woman love each other, but they argue . They get angry. Later they apologize, but it happens again and again. What's the problem? Are men and women really very different.

Deborah Tannen says yes, men and women are very different. Tannen teaches at Georgetown University in Washington, D.C. She writes books about the ways people talk. She believes that men and women talk- and think- in different ways. She tells about some differences in her book, You Just Don't Understand.

The differences, Tannen says, begin when men and women are children. Very young boys and girls are similar to each other. In other words, they like many of the same things and play in the same ways. They aren't very different. But then there is a change. When children in the United States are five or six years old, boys usually play in large groups. One boy gives orders . For example, he says, " Take this," " Go over there". He is the leader. Boys also brag . In other words, they say good thing about themselves. But girls there usually play in small groups or with one other girl. A girl's best friend is

her very good friend and important to her. Girls often don't give orders; they give suggestions.

17. The differences between men and women begin \_\_\_\_\_
  - A. when they are old
  - B. when they are babies
  - C. at the age of sixteen
  - D. when they are children
18. The pronoun "they" , in the last paragraph, refer to

 B. Who went to the store?  
 C. What did Bob bring to school?  
 D. What he does doing right now?
38. Are going to Cinema? Yes, fortunately I've got \_\_\_\_\_ money.  
 A. a few  
 B. few  
 C. a little  
 D. little

Read the following passage and then answer the questions.

Many people wonder: Why do we sleep? Why do we dream? They ask themselves the purpose, or reason. There are many theories, or opinions about this, but scientists don't know if these ideas are correct.

One theory of sleep says that during the day, we need sleep to make new chemicals and repair, or fix, our bodies. This theory is called the "Repair Theory". One piece of evidence for this theory is that our bodies produce more of growth hormone while we sleep.

Another theory is that the purpose of sleep is to dream. Dreaming occurs only during one stage, or period, of sleep ( Rapid Eye movement- REM )sleep. REM sleep occurs about 90 minutes and last for about 20 minutes. Some scientists believe that REM sleep helps us to remember things, but others don't believe and don't agree.

39. The underlined pronoun "themselves" refers to: \_\_\_\_\_  
 A. reasons.  
 B. dreams  
 C. purposes  
 D. people
40. The underlined pronoun "this" paragraph 1 refers to \_\_\_\_\_  
 A. purposes of dreaming and sleeping  
 B. scientist of dreaming  
 C. theories of sleeping and dreaming  
 D. people who sleep
41. The underlined word "evidence" paragraph 2 means \_\_\_\_\_  
 A. chemicals  
 B. dream

- C. repair  
D. proof
42. How long does REM sleep last?  
A. 90 minutes  
B. about 20 minutes  
C. the whole night  
D. a minute

- C. does
- D. doing

The camel can go without water for a long period of time. Some people think it stores water in its hump. This not true. It stores food in its hump. The camel's body changes the food into fat. Then the fat is stores in the hump. A camel cannot store the fat all over its body. Fat all over an animal's body keeps the animal warm. Camels live in the desert They don't want to be warm during the day.

The desert is very hot. The camel gets hotter and hotter during the day. It stores this heat in its body because the nights are cool.

The Arabian camel has one hump. The Bactrian camel of Central Asia has two humps. It also has long, thick hair, because the winters are cold in Central Asia.

There is a lot of sand in the desert. The camel has long eyelashes. The eyelashes keep the sand out of the camel's eyes. Arabic has about 150 words to describe a camel. Many people who speak Arabic need all these words because the camel is very important to them.

38. The camel can go without \_\_\_\_\_ for a long time.

- A. food
- B. water
- C. fat
- D. heat

39. Camel stores \_\_\_\_\_ in its hump.

  - B. cry loudly
  - C. speak slowly
  - D. listen carefully

40. Tannen, who works at George Town University, says, begin when men and women are children. Very young boys and girls are similar to each other. In other words, they like many of the same things and play in the same ways. They aren't very different. But then there is a change. When children in the United States are five or six years old, boys usually play in large groups. One boy gives orders . For example, he says, " Take this," ' Go over there". He is the leader. Boys also brag . In other words, they say good thing about themselves. But girls there usually play in small groups or with one other girl. A girl's best friend is her very good friend and important to her. Girls often don't give orders; they give suggestions. Where does Tannen work?
- a hospital
  - a university
  - a school
  - a company
41. there are ..... people I can trust.
- few
  - little
  - a little
