Title:

The Effect of Hearing the English Songs for Beginning English learners

Description:

What is the most important student's feature in learning languages? — Is to be persistent. How information can be recorded upon unconscious level? — With a help of numerous repeating. And how to not be bored during this repetition? — Here is where a magical power of music comes into play. Music, chosen upon listener's taste, can be played numerous amount of times, and will bore less than any conversation or dialogue repeated same amount of times.

Moreover, music will force student to play it again and again, this fact by itself transform the ordinary way of learning languages. With music, it's no more laborious and tedious, but fun and engaging.

So let's go further, and see, how English Songs power helps beginners to learn English, how it's breaking orthodoxy stereotypes which are rooted in peoples' minds by ages.

Tools & Methodology:

For current students, we will need 20 students from the Canadian Institute in the city of Jubail. All students have an upper- beginners English level. Students will be divided upon 2 groups by 10 people in each. Each group will have same texts to learn. The difference of the first group will be that their materials will be accompanied by music. Each group will have the same amount of time to learn the subject. The outcome of the current study should show the efficiency of language learning, which is based upon music.
