Read the following passage and then answer the questions,
.below

Many people wonder: Why do we sleep? Why do we dream?
They ask
themselves the purpose, or reason. There are many theories, or
opinions
.about this , but scientists don't know if these ideas are correct

One theory of sleep says that during the day, we need to
sleep to make new chemicals and repair, or fix our bodies. This
theory is
called the “ Repair Theory”. One piece of evidence for this
theory is
that our bodies produce more of growth hormone while we
.sleep

Another theory is that the purpose of sleep is to dream.
Dreaming
occurs only during one stage , or period, of sleep (Rapid Eye
movement- REM)sleep. REM sleep occurs about 90 minutes
and last
for about 20 minutes. Some scientists believe that REM sleep
helps us
.to remember things, but others don't believe and don't agree
