

# طرق البحث وتصميم الأبحاث

اسئلة اختبارات سابقة لمقرر (طرق البحث وتصميم الأبحاث) - تم إفراد اسئلة كل محاضرة بجدول منفصل - د. عبدالله الفريدان الفصل الأول ٢٣٦ - ١٤٣٧هـ

### نسخة **محلولة**

#### ملاحظات:

- الأسئلة التي تم حلها هي من اسئلة العام الدراسي ١٤٣٢-١٤٣٤هـ الفصل الأول فقط، ١٤٣٥-١٤٣٥هـ الفصلين، ١٤٣٥-١٤٣٦هـ الفصلين، من نفس الدكتور.
- قد تظن من الوهلة الأولى أنني قد أخطأت بتكرار بعض الأسئلة، لكن أن دققت أكثر سوف تلاحظ أن السؤال قد طرى عليه تغيير أو الخيارات أو كلاهما معاً.
- تم ترتیب الأسئلة المتشابهة بشكل متتابع؛ حتى نرى كیفیة التلاعب بخیارات الأسئلة، وكذلك لتأكید أن الإجابة التي أخترتها هي الصحیحة بمقارنتها بالأسئلة الشبیهة.
  - تم اعتماد وضع <u>كلمة مفتاحية</u> للسؤال والإجابة الصحيحة.
  - النجوم الثلاثة (\*\*\*) تعني أن هذا الجزء مفقود سواء من عدم وضوحه بالتصوير أو لم يكن بحدود إطار التصوير.

Question		Note
	Lecture 01	
001. When	you use <u>quantitative</u> methods, you	
A.	collect data through some tools and you quantify them	
В.	collect all the available data	
C.	collect all the possible data	
D.	collect data to categorise them	
002. Using	quantitative methods means that you	
A.	Collect data through some tools and you quantify them	
В.	Collect data thoroughly by some tools and you qualify them	
C.	Collect all the available data and you qualify them	
D.	Collect all the impossible data and you qualify them	
<b>003. A</b> <u>qua</u>	ntitative method of research means that we	
A.	Collect data through some tools and <u>quantify</u> them	
В.	Collect all the available data and beautify them	
C.	Collect data through some fools and qualify them	
D.	Collect data through some tools and codify them	
004. Using	means that you Collect data through some tools and you quantify them	
A.	quaver methods	
В.	qualitative methods	
C.	<u>quantitative</u> methods	
D.	pedagogical methods	
005. Resea	rch that is designed to <u>explain</u> , <u>observe</u> and <u>discuss</u> its results is said to be:	
Α.	Questionnaires	
В.	<u>Qualitative</u>	
C.	Quasi-experiment	
D.	Quantitative	
_	we collect data through some tools, <u>explain</u> , <u>discuss</u> , <u>argue</u> , <u>about <u>hypothesis</u>, etc.</u>	
Α.	In accumulative research	
В.	In quantitative research	
C.	In commutative research	
D.	In qualitative research	
	litative research,	
Α.	We collect Arabic data and analyze research methods, etc.	
В.	We collect data through some tools, explain, discuss, argue, about sock dexchage, etc.	

- C. We collect data through some tools, explain, discuss, argue, about hypothesis, etc.
- D. We select data through some fools, expatriates and other researchers, etc.

#### 008. What are methods?

- A. A procedure used to analyse data
- B. A procedure used to summarise data
- C. A procedure used to conclude data
- D. A procedure for accomplishing or approaching something, esp. a systematic or established one

#### **009.** The term 'Methods' as a research component refers to .......

- A. A procedure for procrastinating something, esp. an irregular or a disestablished one
- B. A procedure for not accomplishing or approaching anything, esp. a chaotic one
- C. A procedure for accomplishing or approaching something, esp. a systematic or established one
- D. A grass cure for accomplishing or approaching some illness, esp. a long lasting one

#### 010. As a research component, the term 'methods' can refer to .......

- A. A procedure used to analyse data or to contact other researchers about the topic
- B. A procedure for accomplishing or approaching something, esp. a systematic or established one
- C. A procedure used to summarize data and try to publish the results
- D. The type of researcher and his preferred way of analysis

#### 011. What is design?

- A. It is used to summarise data
- B. It is used to highlight the research problem
- C. It is a logical structure of inquiry (research)
- D. It is used for referencing

#### 012. The term 'design' is ......

- A. An illogical structure used to summarize data
- B. used to highlight the research problem
- C. <u>a logical structure of the inquiry (research)</u>
- D. used for referencing

### 013. 'Descriptive', 'Explanatory', 'Ethnographic', 'Case study', 'Longitudinal', and 'cross-sectional' refer to .......

- A. Daffodils and tulips
- B. Different types of rehearse
- C. Different tokens of research
- D. <u>Different types of research</u>

### 014. Terms like 'Longitudinal', 'cross-sectional', 'Descriptive', 'Ethnographic', 'Explanatory', 'Case study', refer to .......

- A. different types of rehears
- B. different types of rasher
- C. similar types of research

D.	D. <u>different</u> types of <u>research</u>		
015. 'Desci	scriptive', 'Explanatory', 'Ethnographic', 'Case study', 'Longitudinal', and 'cross-sectional' refer to		
A.	A. <u>different</u> types of <u>research</u>		
В.	3. similar types of administration		
C.	C. cheap types of drinks		
D.	D. different types of students		
016	refer to different types of research.		
A.	A. Distractive , 'articulatory', 'Earthquake', 'Case, aptitude , and 'cross-cultural		
В.	3. Destructive , 'elementary', 'Ethical', 'Case ending, appeal, and across'		
C.	C. 'Descriptive', 'Explanatory', 'Ethnographic', 'Case study', 'Longitudinal', and 'cross-sectional'		
D.	D. 'Deactivate', 'ovary', 'electrical, 'Case closed, Longitudinal', and gross'		
017. The te	e term 'Research' refers to the investigation into and study of materials and sources		
A.	A. Semitic		
В.	3. Somatic		
C.			
D.			
018. The term 'Research' can refer to the investigation and the study of materials or sources in order to reach new			
conclu	clusions and establish facts		
A.	A. Syntactic		
В.			
C.			
D.	· Private		
	e term 'Research' refers to the in order to establish facts and reach new conclusions		
	A. stylistic investigation and the study of modal or morsels		
В.	3. systematic invalidation and the study of materials or forces		
C.			
D.	D. semantic investigation and the study of Nigeria or its sources		
	Lecture 02		
020. One f	e famous style for writing the reference is called		
A.	A. APS		
В.	B. AP6		
C.	C. APA		
D.	D. APC		
<b>021</b> . The a	e abbreviation <u>APA</u> refers to a famous style for		
A.	A. Writing reference		

- B. Writing capital and small letters
- C. Writing referral messages
- D. Writing deferral offers

### 022. The abbreviation APA refers to a famous style for .......

- A. Speaking referral letters
- B. Writing deferral offers
- C. Writing references
- D. Listening Arabic letters

#### 023. APA refers to a famous style for ......

- A. writing references
- B. reading referencing
- C. writing referral messages
- D. writing frequencies

#### **024.** The <u>APA</u> refers to .......

- A. a famous style for reading references
- B. a famous style for writing inferences
- C. <u>a famous style for writing references</u>
- D. a famous style for writing romances

#### **025.** In the introduction

- A. You introduce the results
- B. You introduce all previous studies and a critique for them
- C. You introduce all the methods and instruments you used
- D. You introduce the study and its significance

### 026. A good classical report will consist of

- A. <u>Abstract-introduction-literature review-methodology-results</u>
- B. Abstract-results-introduction-literature review
- C. Abstract-literature review-results-introduction
- D. Abstract-methodology-results-introduction

#### 027. A good classical report can consist of .......

- A. Abstract-results-introduction-literature review
- B. Results Abstract-methodology
- C. Abstract-literature review- introduction
- D. None of the above

#### 028. Good reports usually consist of .......

- A. Methods-results-introduction-literature review-bibliography
- B. <u>Abstract- introduction-literature review-methodology-results</u>

- C. Abstract- literature review- results- introduction
- D. Conclusion- methodology- results- introduction

### Lecture 03

#### 029. An Abstract is

- A. A summary of the whole literature review
- B. A summary of the whole results
- C. A summary of the whole thing
- D. A summary of the whole methodology

#### 030. A research abstract can refer to ......

- A. A Summary for half the literature review
- B. The type of data a researcher needs
- C. A summary of the whole thing
- D. An analysis of research methodology

#### 031. The abstract of a research contains .......

- A. A summary of the literature movies
- B. A summary of the whole insults
- C. A summary of the whole morphology
- D. None of the above

#### 032. The structure of a good abstract can be

- A. The same in all disciplines
- B. Obfuscating in all disciplines
- C. <u>Different between disciplines</u>
- D. Incompleted in all disciplines

#### 033. In the abstract

- A. We use the past tense summarizing the whole thing
- B. We use wording hiding the results
- C. We use wording hiding tools and instruments we used
- D. We use wording that refers forward like as we shall see

#### 034. A poorly-written abstract .......

- A. will attract the attention of other researchers to read it
- B. will attract the attention of all researchers around the world
- C. will attract only researchers interested in linguistics and sciences
- D. None of the above

#### 035. An abstract that is poorly-written ......

A. will attract only researchers interested in linguistics and science

- B. will attract the attention of all researchers around the world
- C. will attract the attention of other researchers to read it immediately
- D. None of the above

#### 036. A poorly-written abstract .......

- A. will not attract the attention of the reader
- B. will attract only one or two other researchers
- C. will attract the attention of other researchers to read it
- D. will attract the attention of everybody

#### 037. A well-written abstract can .......

- A. make the reader want to write a similar conclusion
- B. make the reader want to plagiarize the researcher concerned
- C. make the reader want to learn more about the researcher concerned
- D. make the reader upset and never read about the research

#### 038. A well-done research abstract can .......

- A. make the reader want to plagiarize your research
- B. make the reader upset and never read about your research
- C. make the reader want to <u>learn</u> more about your research
- D. make the reader want to write a similar research.

#### 039. A well-done abstract can .......

- A. cause the reader to be upset and never read about your research
- B. make the reader want write a similar research
- C. make the reader want to <u>learn</u> more about your research
- D. make the reader want to plagiarize your research

### 040. In the implications section we talk about

- A. The specific result for our context only
- B. The hypotheses and research questions
- C. The analysis of the results
- D. The wider implications of our research

### 041. The 'implications' section of a research talks .......

- A. about the specific results for our context only
- B. about the hypotheses and research questions
- C. about the analysis of the data
- D. about the wider implications of our research

#### 042. The 'implications' section of a research should be about .......

- A. The narrower implications of our research
- B. The wider implications of the literature review

	_	The specific woulds for any context only
	C.	The specific results for our context only
	D.	The wider implications of our research
043.	_	<u>'implications'</u> section of a research, a researcher talks about
	Α.	The general results for our context only
	В.	The framework and research questions
	C.	The analysis of the results
	D.	The wider implications of his/her research
044.	The <u>m</u>	ethods section tells us about
	Α.	How did we find literature review
	В.	How to write-up the research
	C.	What did we do to get the results?
	D.	How to reference
045.		the researchers explain <u>what</u> did they actually do in order that they achieve their <u>results</u>
	A.	In the conclusion section of a research
	В.	In the results section of a research
	C.	In the Methods section of a research
	D.	In the thesis statement section of a research
046.	The	section of a research explains what researchers actually do so that they achieve their results.
	A.	myths
	В.	problem statement
	C.	mythology
	D.	<u>methods</u>
047.	In	section of a research, the researchers explain what did they actually do in order that they achieve their results.
	A.	Conclusion
	В.	<u>Methods</u>
	C.	Problem statement
	D.	Research question
		Lecture 04
049	In roce	earch we prefer to
U40.	A.	Start from where others stopped
	В.	Start from nowhere
	В. С.	Start from other ideas as they were yours
	C. D.	Start from scratch and neglect previous studies
	υ.	Start from Scratch and neglect previous studies

**049. We should choose a topic that is**A. Unimportant

	В.	Boring to us	
	C.	Obfuscating	
	D.		
050. Th	e re	research topic you choose should be one which excites and stimulates your	
	A.	Interleaf curiosity	
	B.	Intercultural curiosity	
	C.	Intellectual crudity	
	D.	Intellectual curiosity	
051. Th	e re	research topic one can choose should be a topic which your intellectual curiosity.	
	A.	helps you pass your viva	
	B.	test and examines	
	C.	excites and stimulates	
	D.	. tires and bores out	
052. Th	e re	research topic you choose should be one which	
	A.	excites and stimulates your indifferent curability	
	B.	examines or tests your intellectual curiosity	
	C.	,	
	D.	excites and stimulates your intellectual curiosity	
053. In	cho	noosing a research topic is very important	
	A.	Constructs	
	В.	<u>Time limit</u>	
	C.		
	D.		
054. In	cho	noosing a research topic is very important	
	A.	Working as a bus driver	
	В.	<u>Time limit</u>	
	C.		
	D.		
055. W		en a researcher chooses a research topic is very important	
	Α.	hydration and body temperature	

## 055.

- B. Tea or coffee
- C. <u>time limit</u>
- D. going to night clubs

# 056. When a researcher chooses a research topic ...... is very important

- A. lime timid
- B. Tea of coffee

C.	<u>time</u> limit
D.	going to night clubs
)57	. is very important in choosing a research topic.
A.	Lime limit
В.	Time timid
C.	<u>Time limit</u>
D.	Lime mint
<b>)58. <u>'</u>Lang</b>	<u>guages teaching <b>by Arab teachers</b>'</u> is to be viable as a research topic.
A.	very specific
В.	too narrow
C.	
D.	
<b>)59. '<u>Lan</u>g</b>	guage <u>acquisition</u> by Arab learners' is to be viable as a research topic.
A.	
В.	
C.	
D.	
<b>)60. '<u>Lear</u></b>	<u>rning a language'</u> is to be viable as a research topic.
A.	
В.	too narrow
C.	too broad
D.	
<b>)61. A</b> <u>cas</u>	se study about the improvement of object pronouns in the grammar of a four-year old bilingual girl in a small village in
•	is
A.	too broad and hence is not a viable research topic
В.	unusual and hence is not suitable as a research topic
C.	
D.	
	se study related to the improvement of subject pronouns in the grammar of a four-year old bilingual boy in a small
_	e in Saudi Arabia is
A.	pacific and hence unmanageable research topic
В.	The second secon
C.	too broad and hence is not a viable research topic

- D. <u>specific and hence manageable research topic</u>
- 063. 'A <u>specific study</u> about the acquisition of relative pronouns in the speech of a four-year old bilingual child in a small city in Canada' is a .......

- A. specific and hence unmanageable rash topic
- B. too broad and hence is not a viable research topic
- C. unusual and hence is not suitable as a research topic
- D. specific and hence manageable research topic

# 064. 'A <u>case</u> <u>study</u> about the development of personal in the grammar of a two-year old bilingual child in a small city in Saudi

#### Arabia' is a ......

- A. specific and hence manageable research topic
- B. general and hence unmanageable research topic
- C. too broad and hence is not a viable research topic
- D. unusual and hence is not suitable as a research topic

### 065. One way $\underline{to}$ $\underline{make}$ $\underline{sure}$ that your selection of a research $\underline{topic}$ $\underline{is}$ $\underline{good}$ is to

- A. Do nothing about it and wait until you finish your research
- B. You start analyse your data
- C. Do a literature review
- D. Ask someone to research for you about this

#### 066. One method to make sure that your selection of a research topic is good .......

- A. is to contact a research centre
- B. is to ask someone to search for you about this
- C. is to start analyzing your data
- D. is to do a literature review

#### **067.** To make sure that your selection of a research topic is good, you need .......

- A. to do a literature review
- B. to contact a research centre
- C. to ask someone to search for you about this
- D. to neglect the literature review

### 068. One way to make sure that your selection of a research topic is good is to ......

- A. Do a Litter view
- B. Do Literature preview
- C. Do Lecturer review
- D. Do a Literature review

### 069. One of the ways a researcher can be sure that his/her topic selection is good is to .......

- A. Do a PhD thesis
- B. Analyse the results
- C. <u>Do a literature review</u>
- D. Stop analysing your data

### 070. A good topic is

- A. A focused topic
- B. A wide topic
- C. A general topic
- D. A bias topic

#### 071. In the introduction section, we start talking about

- A. Why you chose the topic
- B. How you found the previous studies
- C. Where you analysed your data
- D. How you got your results

### 072. We start talking about ...... in the introduction section of a research

- A. how we got the results
- B. why we chose the topic
- C. how we found the previous studies
- D. where we analyzed the data

### 073. We talk about why we chose our research topic ......

- A. in the literature review section of a research
- B. in the results section of a research
- C. in the introduction section of a research
- D. in the discussion section of a research

### 074. In the introduction section of a research, we show .......

- A. where the data will be analyzed
- B. how we got the results
- C. how we found the literature review
- D. why the topic was chosen

### **075.** In the <u>introduction</u> <u>chapter</u>

- A. We outline the summary
- B. We outline what will come in the next sections and chapters
- C. We outline the conclusions
- D. We outline previous studies

### 076. A good abstract is the one

- A. That tell us about future direction of research
- B. That tell us about the research problem, methods, results, and implications
- C. That tell us a critique about previous studies
- D. That tell us about what each section in the research talks about

### 077. We <u>always look</u> for our research <u>results</u> to be

A. Focused only on our schools

- B. Limited only to our contexts
- C. Having interests to few people
- D. Having wider implications

#### 078. We always look for our research results to .......

- A. concentrate only on our schools
- B. <u>have wider implications</u>
- C. be relevant only to our contexts
- D. have no interests to any people

#### 079. Research results should .......

- A. be relevant only to classrooms
- B. <u>have wider implications</u>
- C. restricted only to our contexts
- D. not involve interests to any person

### 080. The <u>highest attainable</u> level of originality in research would be to propose .......

- A. An old theoretical account of Arabic data
- B. a very old practical amount of novel \*\*\*
- C. a novel amount of novel dates
- D. a novel theoretical account of novel data

### 081. In research, the <u>highest attainable</u> level of originality would be .......

- A. to presuppose a novel theoretical account of old data
- B. to propose a novel theoretical account of novel data
- C. to propose a novel theoretical account of ancient data
- D. to propose a novel analytical account of novel data

### 082. The ...... would be to propose a novel theoretical account of <u>novel</u> data

- A. lowest attainable level of originality in research
- B. smallest attainable level of originality in research
- C. richest attainable level of originality in research
- D. <u>highest attainable</u> level of originality in research

#### 083. The ...... would be to propose a novel theoretical account of novel data

- A. lowest attainable level of originality in research
- B. highest unattainable level of originality in research
- C. modest attainable level of nativity in research
- D. <u>highest attainable</u> level of originality in research

#### 084. A good research should have

- A. Novel data
- B. No data

	C.	Repeated data
	D.	Stolen data
085. A	good	d research should have
	A.	oval data
	В.	old recorded data
	C.	<u>novel</u> data
		repeated data
086. A	good	d research should have
		Novella data
	В.	drama data
	C.	poetry data
		<u>novel</u> data
087. A	_	d research should involve
		drama data
	В.	repeated data
	C.	<u>novel</u> data
		recorded data
088. A		arch is good if it involves
		visual data
		<u>novel</u> data
	C.	shocking data
		recorded data
089. In		earch, you choose, the more <u>open-ended</u> your research becomes
		the broader the topic
		the border is difficult to cross
		the older the tape
		the more recent the topic
090	-	you choose, the more <u>open-ended</u> your research becomes.
		The more difficult the topic
		The older the topic
		The more recent the topic
		The broader the topic
091. In		earch, you choose, the more <u>open-ended</u> your research becomes
		the border the topic
	В.	the boarder the topic

the broader the topic

D.	the brander the topic		
	roader the topic you choose,		
A.	the less open-ended your research becomes		
В.	the more <u>open-ended</u> your research becomes		
C.	the easier your research becomes		
D.	the more important your research becomes		
093,	the less likely it is that you will complete it on time.		
Α.	The proper the research topic you choose		
В.	The border of the research cities you cross		
C.	The broader the refreshed topic you lose		
D.	The broader the research topic you choose		
<b>094.</b> The <u>br</u>	oader the research topic you choose, the		
A.	more likely it is that you will complete it on time		
В.	less likely it is that you will change it on time		
C.	easier it is to complete it on time		
D.	<u>less</u> likely it is that you will <u>complete</u> it on <u>time</u>		
<b>095.</b> The <u>br</u>	oader the research topic one chooses, the		
A.	more unlikely it is that you will not complete it on time		
В.	<u>less</u> likely it is that one will <u>complete</u> it on <u>time</u>		
C.	worse research you will do		
D.	greater it is publish your research		
096. Choos	e the CORRECT sentence		
A.	The <u>broader</u> the research topic, the <u>less</u> likely it is that it can be <u>completed</u> on <u>time</u>		
В.	The border of the research topic is less likely to be arrived at one time		
C.	The broader the research topic, the more likely it is that it can be completed on time		
D.	The narrower the research topic, the less likely it is that it can be completed on time		
097. The pl	ace of <u>defining</u> your terms is		
A.	References/ bibliography		
В.	Methodology/ design		
C.	Literature review/ introduction		
D.	Results/ discussion		
Lecture 05			
098. The opposite of plagiarism is			

# 09

- Loyalty A.
- **Authorship** В.

- C. Integrity
- D. Honesty

#### 099. The term ...... is the opposite of plagiarism

- A. Author shape
  - B. Censorship
  - C. Orthography
  - D. Authorship

#### 100. In research, authorship is the opposite of .......

- A. authority
- B. precognition
- C. paganism
- D. plagiarism

#### 101. Authorship is the opposite of .......

- A. authority
- B. playground
- C. paganism
- D. plagiarism

#### **102.** Plagiarism is

- A. Representing your own language and ideas as your own original work
- B. Representing other authors' language and ideas as your own original work
- C. Representing other authors' language and ideas as their own original work
- D. Representing other authors' language and ideas as a plagiarised work

#### 103. The term plagiarism refers to the representation of .......

- A. other authors' language and ideas as a plagiarized work
- B. your own ideas and language as your own original work
- C. other authors' language and ideas as your own original work
- D. other authors' ideas and writing as their own original work

#### 104. The term 'plagiarism' can refer the representation of .......

- A. All authors, language and ideas as a plagiarized work
- B. Your own ideas and language as your own original work
- C. Other authors' language and ideas as your own original work
- D. Assigning different examiners for the viva defence

#### 105. Plagiarism means to the represent ......

- A. other authors' language and ideas as a plagiarized work
- B. your own ideas and language as your own original work
- C. other authors' ideas and writing as their own original work

# D. other authors' language and ideas as your own original work 106. If a researcher is accused of plagiarism, his or her ...... A. research will be universally accepted B. research will be given an honor degree C. research may not be accepted D. research will be published 107. If a researcher is accused of plagiarism, his/her research ....... A. may not be expected B. will be published C. may not be accepted D. will be universally acknowledged 108. When a research is accused of plagiarism, his research ....... A. shall be important B. may not be accepted C. will be sent to another university D. shall be successful 109. One type of plagiarism is A. You reference the quotations B. You acknowledge other people's ideas C. You mention who helped you in your research D. You use one of your research as two pieces of research 110. One kind of plagiarism is that ...... A. You document the quotations B. You acknowledge other people's ideas C. You mention who helped you in your research D. You use one of your research as two pieces of research 111. The references is a list of A. All the authors who share the same topic of yours B. All the books, articles, websites...etc you consulted C. All the potential publishers of your research D. All the terms you used in your research 112. To author a research topic is

- A. to get your ideas out of your own words from your knowledge
- B. to get someone proofread your research
- to get someone to author it for you
- D. to get ideas from other and author them

# **Lecture 06**

113. In the literature review	
A. you talk about all the procedures used	
B. you talk about the results	
C. you talk about the study and its significance	
D. you talk about all previous studies and a critique for them	
114. In the <u>literature</u> review, we talk about	
A. <u>previous studies and a critique for them</u>	
B. all the procedures used in research	
C. the results and findings of the research	
D. the study and its significance	
115. In the <u>literature</u> review, you talk about	
A. <u>previous studies and a critique</u> for them	
B. the evidence relevant to the data	
C. the findings and results of the research	
D. the money and its significance	
116. In the <u>literature</u> review, the researcher can	
A. plagiarize the work of other researchers	
B. <u>disentangle different opinions of scholars</u>	
C. summarize the findings of his/her research	
D. analyze the data of his/her study	
117. The researcher can in the <u>Literature</u> Review	
A. disenable different opinions of scholars	
B. <u>disentangle</u> <u>different opinions</u> <u>of scholars</u>	
C. summarize the findings of his/her research	
D. dissemble different opium of scholars	
118. The researcher in the Literature Review can	
A. dismantle different opinions of scholars	
B. disseminate the pork of other searchers	
C. summarize the findings of his/her research	
D. <u>disentangle different opinions</u> of scholars	
119. In the <u>literature</u> review, the researcher <u>presents</u>	
A. a critique of previous research in different research areas	
B. a critique of future research in the same general area	
C. <u>a critique of previous research in the same general areas</u>	

D.	a praise of future research in the same general areas	
120. In the	the researcher presents a critique of previous research in the same general area.	
A.	litter view	
В.	literature preview	
C.	lecturer review	
D.	<u>literature</u> review	
121. In the	researchers can <u>present</u> a previous research <u>critique</u> in the <u>same</u> <u>general</u> area	
A.	preview of landscape	
В.	literary interview	
C.	world literature	
D.	<u>literature</u> review	
122. Our	should <u>discuss</u> <u>previous</u> works <u>relevant</u> to the research concerned.	
A.	literary criticism	
В.	the border is difficult to cross	
C.	<u>literature</u> review	
	the more recent the topic	
	should <u>discuss</u> <u>previous</u> works <u>relevant</u> to our research.	
A.	conclusion	
В.	findings	
C.	<u>literature</u> review	
D.	data analysis	
	erature review should be	
Α.	Unconnected	
В.	Broad	
C.	Concise	
D.	Little	
	erature review should include	
Α.	Discussion of our results	
В.	Results	
C.	<u>Previous</u> studies	
D.	Design of our research	
	erature review of a research has to include	
Α.	Discussion of our results	
В.	Results and findings	
C.	Previous studies  Design of commences to	
D.	Design of our research	
18	iSeeU E	(01-12-2015)

<b>127.</b> The <u>lit</u>	rerature review should include	
A.	future studies	
В.	prevailing studies	
C.	<u>previous studies</u>	
D.	methodology and design of research	
128. The <u>lit</u>	cerature review should include	
A.	Prevenient studies	
В.	<u>Previous studies</u>	
C.	Previous sated	
D.	Prevalent mismatches	
<b>129.</b> The <u>re</u>	eview and critique of previous research should be at every point be	
A.	implicitly connected to your specific project	
В.	explicitly disconnected to your specific project	
C.	explicitly connected to your general project	
D.	explicitly connected to your specific project	
<b>130.</b> <u>Critiqu</u>	<u>ue and review</u> of previous research should at <u>every point</u> be <u>explicitly</u>	
A.	connected to your specified products	
В.	irrelevant to your specific project	
C.	not connected to your specific project	
D.	<u>connected</u> to your <u>specific</u> <u>project</u>	
131. Revie	w and point be explicitly to your specific project	
A.	irrelevant	
В.	not connected	
C.	<u>connected</u>	
D.	dictated	
<b>132. The</b> p	ace of reviewing past methods and tools is	
A.	references	
В.	<u>literature</u> review	
C.	results	
D.	methodology	
<b>133. In</b> <u>lite</u>	rature review, it is not recommended to show that	
Α.	You got on top of the topic	
	You got a critique of previous studies	
C.	The topic got on top of you	
D.	You got sensible sections	
134. In the	<u>literature</u> review it is recommended to	

19

- A. stick to one method neglecting other
- B. show knowledge of other models
- C. <u>show little reading about your topic</u>
- D. show negligence of your topic

### 135. In <u>literature</u> review, we should <u>not</u>

- A. report things with critique
- B. report things relevant to our research
- C. report things without critique
- D. report things with shortcoming

#### 136. One criticism to a bad literature review is that you

- A. Show other people's definitions without showing yours
- B. Show your side between two arguments
- C. Show the relevance between your research and other
- D. Show your awareness of other people's shortcoming

### Lecture 07

#### 137. A research guestions is

- A. a question that we ask about the statistics used
- B. <u>a question that we ask in the beginning of our research and look to find an answer for</u>
- C. a question that we ask about how to write-up the research
- D. a question that we ask about the list of references

#### 138. The research guestion can be defined as guestion that we .......

- A. ask in the middle of our research and look to find a reputation for
- B. ask in the end of our research and look to find an answer for
- C. ask in the beginning of our research and look to find an answer for
- D. ask in the beginning of our research and neglect to find an answer for

#### 139. A research guestion is a question that .......

- A. we ask about the list of references
- B. we ask in the end of our research and look to find no answer for
- C. we answer at the beginning of our research and look to find a question for
- D. we ask in the beginning of our research and look to find an answer for

#### 140. Examples of where someone can find samples and administer research tools are \*\*\*

- A. your own car
- B. your own briefcase
- C. your own head
- D. your own organization or others

# 141. A researcher can find samples and administer research tools in ....... A. his/her own organic nature and food or the friend one always accompanies his/her own organization, company, university or others C. his/her own briefcase D. his/her own house 142. A researcher can find samples and administer research tools in ....... A. his/her own localization, symphony, nicety or others B. his/her own legalization, come dummy, unwisely or others C. his/her own organization, company, university or others D. his/her own focalization, come penny, diversity or others 143. We can find samples and administer research tools in ....... A. our own swimming pools, playgrounds, and TV B. our own <u>organization</u>, company, university or others C. our own briefcases and hand bags D. our own draft writings and future life 144. Examples of where someone can find samples and administer research tools are ....... A. Your own car Your own organization, company, university or others C. Your own briefcase D. Your own head 145. If you select an organization to select some samples from, one important thing is to A. make sure they have an office for you B. make sure they have enough population C. make sure they have a computer for you D. make sure they have some refreshments for you 146. One way for sample selection is A. Population B. Summarization C. Randomization

D. Inflation

### Lecture 08

- 147. If you want to compare differences among the same group, then your design is
  - A. Two-way ANOVA
  - B. Within groups
  - C. Between groups

D.	One-way ANOVA	
148. In e <u>x</u> p	erimental design, we need	
A.	No groups	
В.	<u>Two groups</u>	
C.	Half group	
D.	One group	
149. If you	want to compare the same groups at one point in time, then your design is	
A.	<u>Cross-sectional</u>	
В.	Between groups	
C.	Within groups	
D.	Longitudinal	
150. In the	<u>cross</u> -sectional research method, the are observed at <u>one</u> point in time.	
A.		
В.	Three different groups of people	
C.	Four different groups of people	
D.	The same groups of people	
151. In the	<u>Cross</u> -sectional research method, the <u>same</u> <u>groups</u> of people	
A.	are neglected at one point in time	
В.	are obsessed at one point in time	
C.	are observed at different points in time	
D.	are <u>observed</u> at <u>one</u> point in time	
<b>152. The</b> <u>cr</u>	oss-sectional research method shows that the same groups of people observed	
A.	at <u>one</u> point in time	
В.	at two points in time	
C.	at one place and one time	
D.	at similar points in time	
153. When	we have two groups, we usually call one the experimental group an***	
A.	The control group	
В.	The classical group	
C.	The between group	
D.	The within group	
154. If you	want to compare two different groups, then your design is	
A.	Between groups	
В.	One-way ANOVA	
C.	Repeated measures	
D.	Within groups	
	6.3	
22	iSeeU E	(01-12-2015)

155. In th	longitudinal research method, the same groups of people are observed as they grow older.	
A.	at one point in time	
В.	every hour	
C.	every minute	
D.	at different points in time	
156	the <u>same groups</u> of people are observed at <u>different</u> points in time as they <u>grow</u> <u>older</u> .	
A.		
В.	In the cross-sectional research method	
C.	In the introduction to research methods	
D.	***	
<b>157.</b> The §	ame groups of people are observed as they grow older in the longitudinal research method.	
A.	every minute	
В.	at similar points in time	
C.	at different points in time	
D.	at similar points in place	
158. If you	want to compare groups over time, then your design is	احتمال أن تكون الإجابة D.
A.	<del>_ · _ 0 · ·   ·</del>	
В.	one-way ANOVA	
C.	between groups	
D.	(longitudinal)	
	Lecture 09	
159. The <u>c</u>	ependent variable is	
A.	The variable that is affected by the independent variable	
В.	The variable that is dependent on the hypothesis	
C.	The variable that is affected by the results	
D.	The variable that is affected by the abstract	
<b>160.</b> A <u>hy</u>	<u>othesis</u> <b>is</b>	
A.	A hypothesis is a statement that describes or explains a relationship among variables	
В.	A hypothesis is a statement about your research	
C.	A hypothesis is a statement about the outcome of your research	
D.	A hypothesis is a statement about the problems in your research	
161. The .	can refer to a statement that describes or explains a relationship among variables	
A.	Hybrid species	
В.	Hyperactivity	
C.	Hyper sensitivity	

iSeeU

D.	Hypothesis		
162. The hypothesis can refer to a statement that			
A.	· · · · · · · · · · · · · · · · · · ·		
В.			
C.			
D.			
	refers to a variable that is thought to affect the <u>outcome</u> or the variable that is <u>manipulated</u> by the researcher.		
A.			
В.			
C.	<del></del>		
D.			
164	. refer to a variable that is manipulated by the researcher (or the variable that is thought to affect the outcome)		
Α.			
В.	Independent variable		
C.	The dependent variable		
D.			
	refers to a variable that can affect the outcome.		
Α.			
В.			
C.	Intended variety		
D.			
166. The <u>i</u>	independent variable is		
A.	the variable that is thought to affect to the hypothesis		
В.			
C.	the variable that is thought to affect to the results		
D.	the variable that is thought to affect to the abstract		
167. The t	term "" refers to a procedure used for measuring and defining a construct.		
A.	operational distinction		
В.	operational definition		
C.	opera definition		
D.	optical definition		
168. The "" is a procedure used for measuring and defining a construct.			
A.	Illustrative definition		
В.	Optical definition		
C.	Operational definition		
D.	Opera definition		

# 169. The term ...... refers to procedure that is used for defining and measuring a construct A. Dysfunctional definition B. Optical definition C. Operational definition D. Opera definition 170. One of the first steps to think of before doing research is A. To think of who you want to participate in your research B. To think of the references C. To think of how you will publish it D. To think of the results Lecture 10 171. To constitute a proper variable, a good categorization/classification system ....... A. should be exhaustive, B. should have mutually exclusive categories, C. should not mix categories of different types in one set D. all the above have 172. To constitute a proper variable, a good categorization/classification system should ....... A. not be exhaustive, nor have mutually exclusive categories and should mix categories of different types. B. be exhaustive, have mutually exclusive categories, and should not mix categories of different types in one set. C. be superficial, have distinctly allusive exclusive categories, and must mix categories of similar types in one set. D. be incomplete, have mutually inclusive categories, and should mix categories of different types in one set. 173. In order to establish a good classification/categorization and a proper variable, the system should ....... A. mix categories of similar types in one set B. be exhaustive and have mutually exclusive categories C. seek data analysis from students D. look for a better framework 174. One important step in research is to define your terms, one example of this is A. To define the statistics used B. To define the sample C. To define the main term in your research like (word, t-units...etc)

- D. define the tools used

### Lecture 11

### 175. One type of interviews is

- A. Ineffective
- B. Irrespective

C.	Retrospo	ective
<b>C</b> .	. ve ti osp	

D. Respective

#### 176. We use questionnaires in research as a:

- A. tool to collect data
- B. tool to analyse data
- C. tool to generate results
- D. tool to design research

#### 177. Questionnaires in ELT are used to:

- A. Access the cognitive abilities
- B. Interpret the results
- C. Design the research
- D. Gather information about people views, attitudes, and perceptions

#### 178. We use Questionnaires in ELT to ......

- A. access the cognitive abilities
- B. gather information about people views, attitudes, and perceptions
- C. interpret the results of a different research
- D. design the research

#### 179. We can use questionnaires in ELT to ......

- A. abandon the cognitive abilities
- B. gather information about people views, attitudes, and perceptions
- C. translate the results of a different research
- D. design the research

#### 180. In ELT, questionnaires are used to ......

- A. neglect information about people views, attitudes, and perceptions
- B. ignore information about people views, attitudes, and perceptions
- C. interpret the results of a different research project
- D. gather information about people views, attitudes, and perceptions

#### 181. One way to attract participants to your research is to

- A. Threaten them
- B. Punish them
- C. Shout at them
- D. Reward them

#### 182. Data elicited in the form of people's reports about language is mostly used in .......

- A. ELT
- B. Applied linguistics
- C. Sociolinguistics

D.	all the above	
183. Data <u>e</u>	elicited in the form of people's reports about language	
A.	is rarely used in applied linguistics	
В.	is mostly used in ELT	
C.	is never used in sociolinguistics	
D.	is mostly used in computational syntax	
184. There	e will be an age affect on the learning of English language among different population	
A.	Age is independent and learning is dependent	
В.	Age is dependent and learning is independent	
C.	Age is independent and people is independent	
D.	Age is dependent and people is dependent	
	Lecture 12	
185. If you	u have one variable in your research, then it is	
A.	Bivariate	
В.	Factorial	
C.	Multivariate	
D.		
_	g one variable in your research means	
A.	it is a Bivariate	
В.	it is a factorial	
C.		
	use of one variable in your research means it is a	
A.	uncial	
В.	universal	
C.	<u>univariate</u>	
D.		
<b>188.</b> Using	g of one variable in one's research can mean that it is a	
A.		
В.	<b>8</b>	
C.	Multivariate	
D.		
	g in your research means it is a Univariate	
Α.	****	
В.	one variable	

27

C.	three variable		
D.	four variable		
190. Vari	190. Variables that you want to exclude their effects are called		
A.	Independent variables		
В.	<u>Control</u> <u>variables</u>		
C.	Explanatory variables		
D.	Dependent variables		
191. We	call the variables whose effects are <u>excluded</u>		
A.	Contralateral variables		
В.	Central variables		
C.	Control vestibules		
D.	<u>Control</u> variables		
192. The	variables whose effects are <u>excluded</u> are		
A.	Contour variables		
В.	Control valuable		
C.	Coronal vulnerable		
D.	<u>Control</u> <u>variables</u>		
193. One	way to <u>avoid other variables</u> affecting your variables is to make them	بالأسئلة المصورة، الخيار D مكتوب بهذا الشكل:	
A.	Moveable	consonant	
В.	Manipulative	وأنا غيرته هنا؛ لأن الجواب مفروض	
C.	Variable	يكون كما كتبت. وهذا يتضح من الأسئلة التي تليه.	
D.		وهذا يتضح من الاسئلة التي تليه.	
<b>194.</b> To <u>a</u>	<u>void</u> a situation in which <u>other variables</u> can affect your variables one needs make these variable		
Α.	Consonants		
В.	Manipulative		
C.	Variable		
D.			
<b>195.</b> To <u>a</u>	<u>void</u> a situation where <u>other variables</u> can affect your variables you need to		
A.			
В.			
C.	make them consonants		
D.			
<b>196.</b> To <u>a</u>	<u>void</u> a situation where <u>other variables</u> affect your variables you need to make them		
A.	condescend		
В.	consonant		
C.	consistent		

iSeeU

28

	<u>constant</u>	
<b>197. To</b> <u>avo</u>	oid a situation where you need to make them constant.	
A.	,	
В.	other results can affect your variables	
C.	other people can affect your variables	
D.	other variables can affect your variables	
198. Contr	olling other variables is	
A.	Not reliable	
В.	Not ideal	
C.	Not practical	
D.	Not possible	
	Lecture 13	
<b>199. The</b> <u>c</u> e	entrality of the scores is called	
A.	Descriptive	
В.	<u>Means</u>	
C.	Frequency	
D.	(Inferential)	
200. Some	times we want to find how variable relate to each other, this is called:	
A.	Measure of relationship	
В.	Measure of difference	
C.	Measure of similarity	
D.	Measure of variance	
201. One ii	mportant feature of results is	
A.	The quantity	
В.	The summary	
C.	The introduction	
D.	The presentation	
202. To ma	ike our <u>results</u> <u>clearer</u> to our readers we use	
A.	Unexplained number	
В.	Brief descriptions	
C.	Graphs, charts, and tables	
D.	Mystery and ambiguity	
203. The technical term for the <u>variance</u> between <u>scores</u> is		
A.	Standard measures	
В.	Standard features	

- C. Standard tests
- D. Standard deviation

### 204. ...... quantify the amount of relationship between two (or more) variables as measured in the same group of people.

- A. Measures of real ships
- B. Deterrent measures
- C. Measures of rural ships
- D. Measures of relationship

#### 205. ...... quantify the amount of <u>relationship</u> between two (or more) variables as measured in the same group of people.

- A. Deterrent measures
- B. Measures of water
- C. Measures of relationship
- D. Measures of difficulty

#### 206. Choose the correct sentence

- A. Measures of relationship qualify and degree of relationship between variables as measured in different group of people.
- B. Measures of relationship quantify the strength of relationship between two (or more) people as measured by their friends and relatives.
- C. Statistics of relationship quantify the time spent investing in relationship between two (or more) variables as measured in the same group of animals.
- D. <u>Measures of relationship quantify the amount of relationship between two (or more) variables as measured in the same group of people.</u>

#### 207. ...... can enable you to generalize from the specific sample(s) you measures to wider 'population' that you sampled.

- A. Internet stock tactics
- B. Inferential stylistics
- C. Infernal statistics
- D. Inferential statistics

#### 208. ...... can enable you to generalize from the specific sample(s) you measures to wider 'population' that you sampled.

- A. popular statistics
- B. international statistics
- C. inferential statistics
- D. internet statistics

### 209. Statistics that are used to show differences or relationships are called

- A. Descriptive
- B. Measures
- C. Inferential

غبر متأكد من الأجابة.

D.	Parametric		
210. The s	10. The significant difference has to be at the level of		
A.	P= 50		
В.	P=0.50		
C.	<u>P=.05</u>		
D.	P=.50		
211. The adequate level of certainty every research is always at			
A.	<u>95%</u>		
В.	100%		
C.	200%		
D.	5%		

### Lecture 14

### 212. Research is

- A. Looking for new ideas and findings
- B. Looking for previous studies
- C. Looking for data only
- D. Looking for knowledge only

### 213. The term research can mean .......

- A. Looking for previous studies
- B. Looking for new ideas and findings
- C. Looking for data only
- D. Looking for good food only

..
