Questions: 25

عدد الأسئلة : ٢٥

Time: 30 min

زمن الإجابة: ٣٠ دقيقة

Instructions

Read the following passages, and then choose the best answer to each of the questions that follow and mark it on your answer sheet.

Passage 1

1. It seems that people don't like rules as they think they represent a kind of restrictions, but in fact life can't be organized without rules. Peoples always need rules and laws to be able to live and deal together. Can you imagine even a game without rules; of course it will be a kind of mess. When they are playing a game, they must follow its rules or it will be unfair. Also everything in our life should be restricted with rules or it becomes a mess and unfair. If there are no rules and everyone is free to do whatever they want, most people will probably behave selfishly. We need rules to help us get a long together and show respect to each other.
2. For example in schools, if a student ignores rule against talking in class, the teacher will not be able to achieve his goal and other students can't concentrate. Drivers who don't follow traffic laws can cause serious accidents. Doctors, engineers, farmers, everyone in the society must behave under rules. Most things we do are governed by rules which may be unwritten like the rules of social politeness and back up by the legal system.
3. All the rules and laws have the same purpose. They organized the relations between individuals and the society to make it clear what is right and wrong and what happens if someone breaks the rules. They are designed to ensure fairness, safety and respect for other people's rights.
4. Most of us are basically honest, and knowing the rules means that we usually try to follow them. One reason we do is to avoid punishment, but the strongest argument for following the rules is to make the world peaceful and fair.

Questions

1. The best title for this passage is.....
 - a. How do we organize our life?
 - b. The importance of rules to games
 - c. The importance of rules to our life
 - d. Traffic rules

Section (1)
النموذج (1)

2. Following the rules leads to

- a. cause accidents
- b. behave selfishly
- c. avoid punishment
- d. get punishment

3. The writer thinks that.....

- a. all of us are honest
- b. few of us are honest

النموذج (1)

Passage2

1. From far out in space, Earth looks like a blue ball. Since water covers three-fourths of the Earth's surface, blue is the color we see most. The continents look brown, like small islands floating in the huge, blue sea. White clouds wrap around the Earth like a light blanket. The Earth is shaped like a sphere, or a ball. It is 25,000 miles around! It would take more than a year to walk around the whole planet. A spaceship can fly around the widest part of the sphere in only 90 minutes.
2. Even though spaceships have traveled to the Moon, people cannot visit the Moon without special suits. The Moon has no air or water. Plants and animals can't live there either. Astronauts first landed on the Moon in 1969. After that, there were six more trips to the Moon. They brought back Moon rocks, which scientists are still studying. There are holes, or craters, all over the Moon's surface. Scientists believe that meteorites smashed into the Moon millions of years ago and formed the craters.
3. The Sun is the closest star to Earth. A star is a hot ball of burning gas. The Sun looks very big because it is so close. But the Sun is just a medium-sized star. Billions of far-away stars are much bigger than our Sun. The burning gases from the Sun are so hot that they warm the Earth from 93 million miles away! Even though the Sun is always glowing, the night here on Earth is dark. That's because the Earth rotates, or turns around, every 24 hours. During the day, the Earth faces the Sun. Then we see light. During the night, the Earth turns away from the Sun. Then it faces the darkness of space. Each day we learn more about the Earth, the Moon, and the Sun.

Questions

6. **Why is blue the color we see most when looking at Earth from outer space?**
 - a. Because most of the Earth is covered in land.
 - b. Because the Sun's rays make the Earth look blue.
 - c. Because most of the Earth is covered in water.
 - d. Because clouds wrap around the Earth.

7. Read this sentence from the story.

Scientists believe that meteorites smashed into the Moon millions of years ago and formed the craters.

What does **formed** mean?

- a. hit
- b. made
- c. broke
- d. stopped

8. What causes daylight on Earth?

- a. The full Moon causes daylight.
- b. Daylight is caused by the Earth facing away from the Sun.
- c. The heat of the Sun's rays causes daylight.
- d. Daylight is caused by the Earth facing toward the Sun.

9. Which of the following sentences BEST describes the Sun?

- a. The Sun looks small because it is so far from Earth.
- b. The Sun is a ball of burning gases that gives the Earth heat and light.
- c. The Sun is a small star.
- d. The Sun is not as hot as it looks.

10. Why did the astronauts bring rocks back from the Moon?

- a. Because they didn't know if they would return to the Moon ever again.
- b. Because they wanted to prove that they went to the Moon.
- c. Because they wanted to remember how the Moon looked.
- d. Because they wanted to study them and learn more about the Moon.

11. What is the main idea of the article?

- a. Plants and animals can't live on the Moon.
- b. Without the Sun we would have no heat or light.
- c. We know a lot about the Earth, Moon, and Sun, but there is still more to learn.
- d. From outer space, the Earth looks tiny, even though it is thousands of miles around.
