Lecture 1

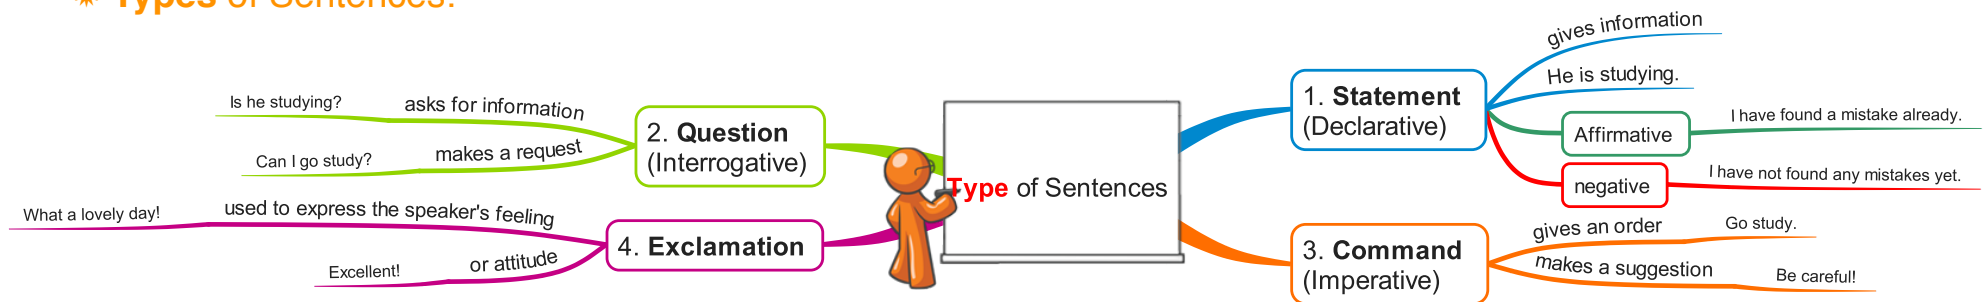

❖ Grammar

- The rules that say how words are **combined, arranged** and **changed** to show different meanings.
- The **largest** unit of grammar is the **Sentence**.

❖ Sentences

- a group of **words** that expresses a statement, question, command or exclamation.
- **consists of:**
 - one or more clauses
 - usually has at least one subject and verb

☀ Types of Sentences:

☀ Sample Sentence

The man is here.

☀ Compound Sentence

The man is here, **and** he wants to see you.

☀ Complex Sentence

The man **that** wants to see you is here.

❖ Verbs

- The central unit (nucleus) of an English sentence.
- **can refer to:**
 - Action run, walk and talk
 - States want, have and be.

* Main Verbs

Each English sentence has a main verb.

Mohammed walked home.

Khaled is happy.

* Helping Verbs (auxiliaries)

1. be (is, am, are, was, were)
2. have, has, had
3. do, does, did
4. Modal auxiliaries:
 - can, could, shall, should, will, would, may, might, ...etc

can also function as

He is here.

Some sentences require one or more helping verbs (auxiliary verbs).

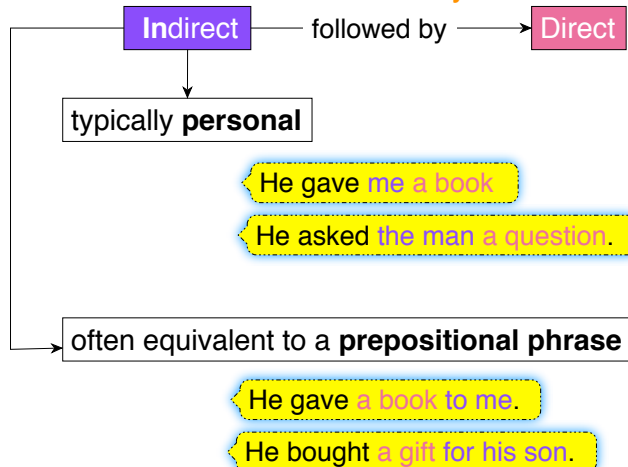

He is coming to the meeting.

He could come here soon.

* Transitivity

* Direct vs. Indirect Objects

شرح إضافي للتوضيح فقط

Direct Object:

- It is a noun or a pronoun that **receives the action of the verb** in the sentence.
- It answers the questions "Whom?" or "What?"

Indirect Object:

- usually comes **before** Direct Object.
- It answers the questions "to Whom?" or "for Whom?"

Example:

He bought a gift for his son.

- **What** he bought for his son?
 - a gift
- **To whom** he bought a gift?
 - for his son

Lecture 2

❖ Phrase

- **two or more** words that function together as a **group**

The old man walked down the street.

- **phrase types:**

1. Noun Phrase
2. Verb Phrase
3. Adjective Phrase
4. Adverbial Phrase
5. Prepositional Phrase

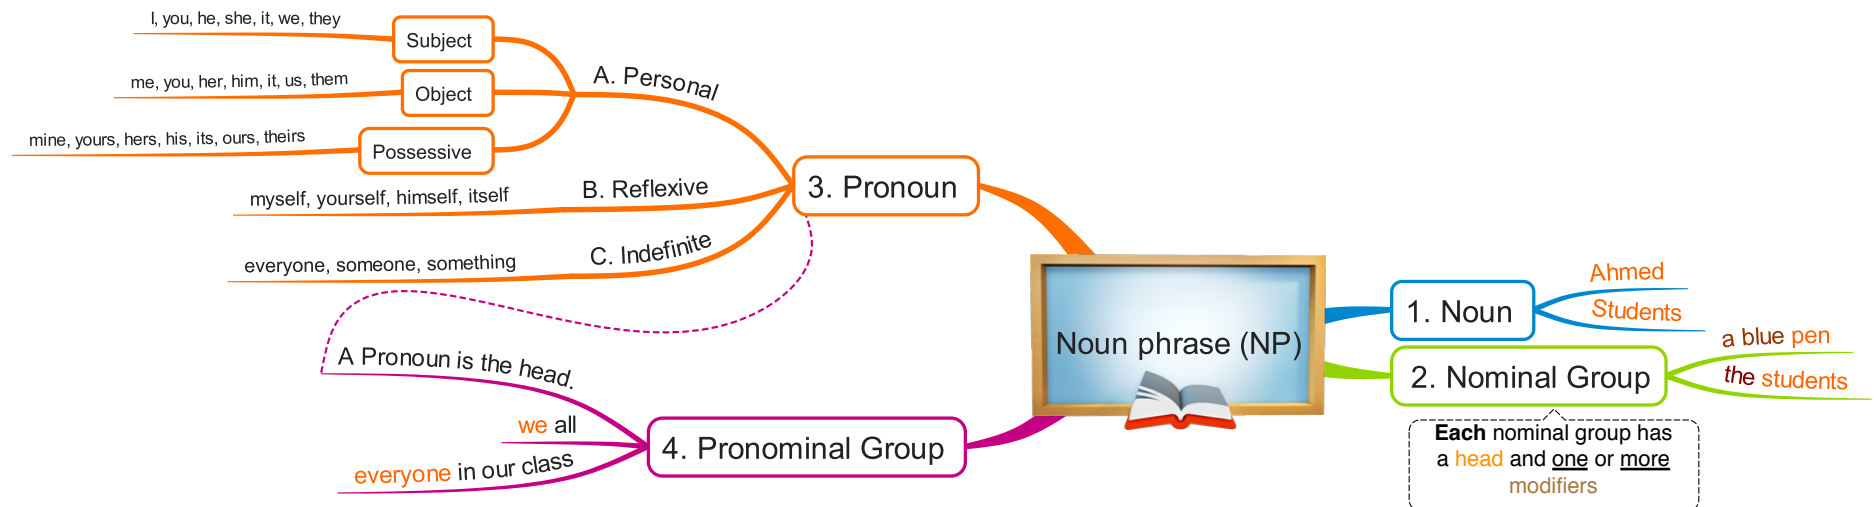

- **Each** phrase has a **head** and one or more **modifiers**.

- **Head:** is the word that determines the type of the phrase.
- **Modifiers:** add to, change or limit the meaning of the **head** in a phrase.

❖ Noun Phrase (NP)

★ Pronoun

- is a type of “**pro-forms**” which are defined as **forms** used instead of other forms.

* Noun can be divided to:

☀ Proper Nouns

- is the name of **someone** or **something** that is usually imagined to be **unique**.

☀ Common Nouns

- is a name given either to an **example** of a class or to **the class as a whole**.
- are usually found in **nominal groups** to help the speaker say which particular example of a class he has in mind. **The students** were waiting for the teacher. The teacher's desk is **new**.

☀ can refer to something:

★ Animate nouns refer to a person or animal.

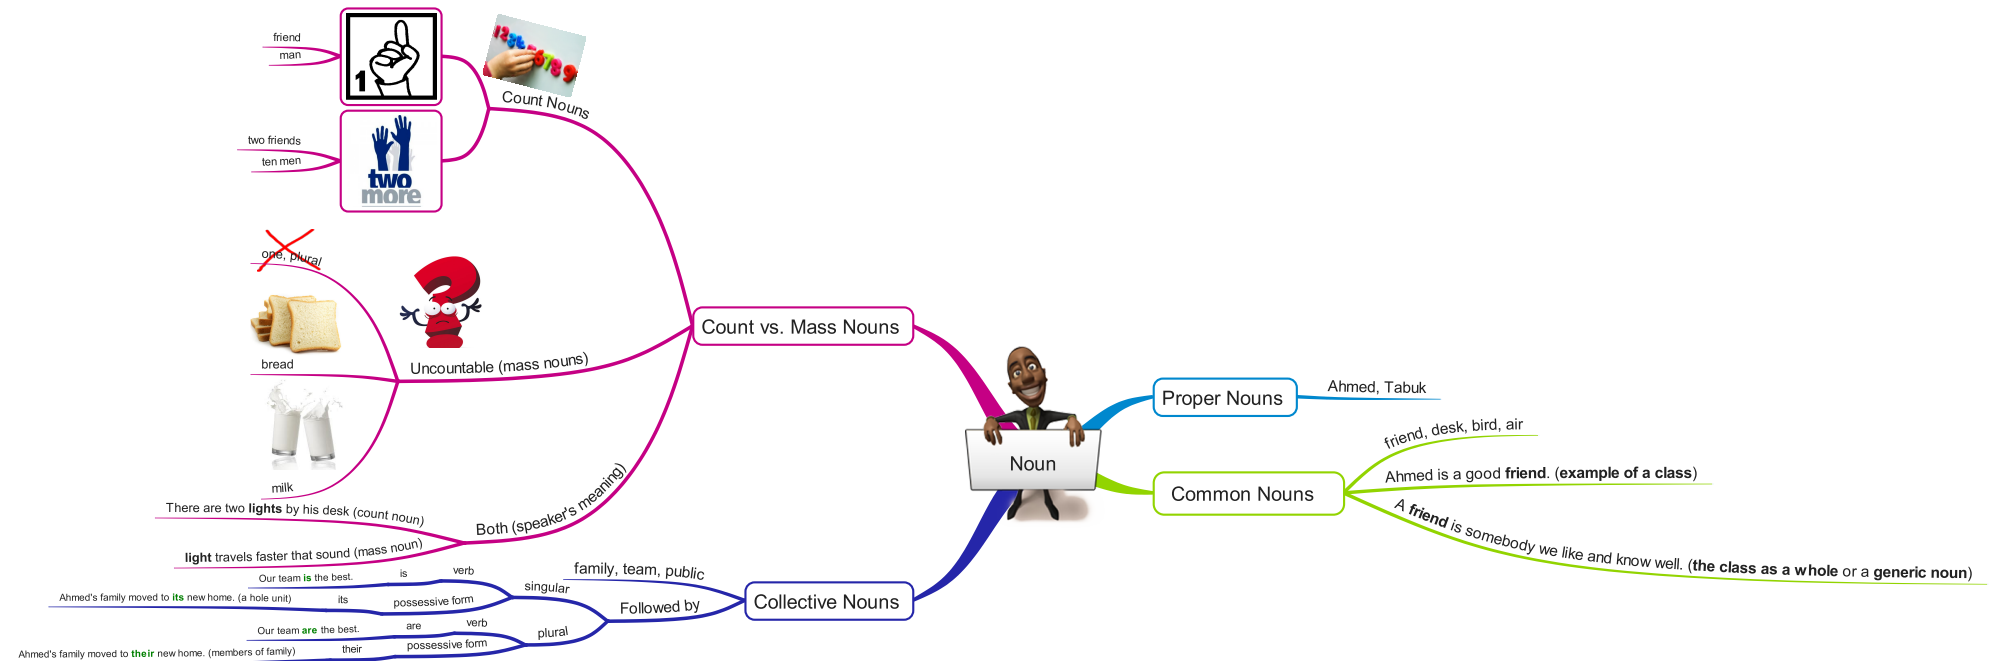

Ahmed, friend, bird

★ Inanimate nouns refer to a place, thing or an idea.

Tabuk, desk, air, freedom

☀ Collective Nouns

- is a **singular** word used to refer to a **group**.

Lecture 3

❖ Modifiers

1. **Pre-modifiers** are modifiers that come before the **head**.

2. **Post-modifiers** are modifiers that come after the **head**.

Pre-modifiers	Head	Post-modifiers
a good	friend	
my school	friends	
the	headmaster	of the school
the headmaster's	desk	
several	students	
	we	all
	everyone	in our class

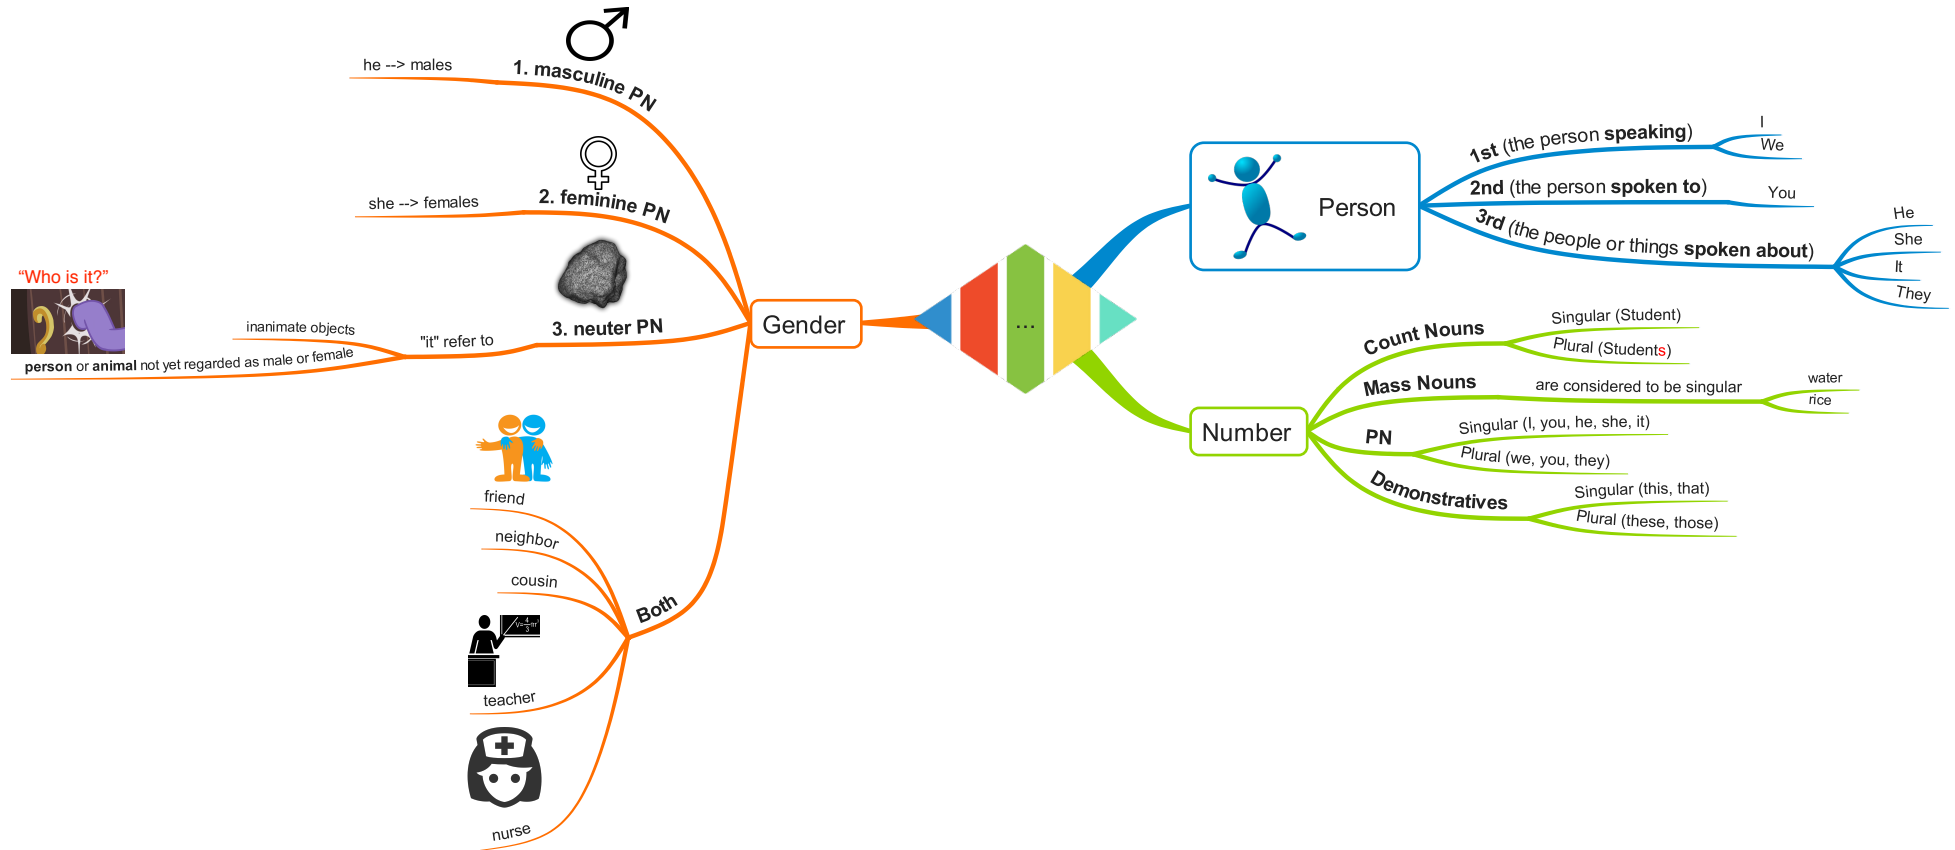

❖ Determiners

- are words which **specify the range of reference** of a noun by making it
 - definite (the book)
 - indefinite (a book)
 - quantity (many books)

❖ Person, Number and Gender

Whether the subject is **1st person**, **2nd person** or **3rd person**;
and whether it is **singular** or **plural** can affect the form taken by the verb.

He walks home everyday.	3rd person singular subject
I walk home everyday.	1st person singular subject
They walk home everyday.	3rd person plural subject

Lecture 4

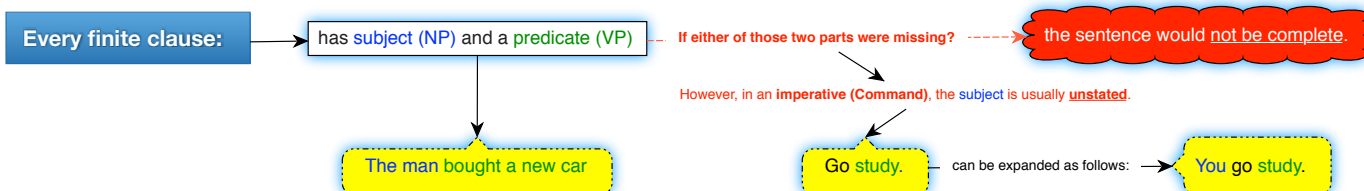

❖ Clause

A **complete** sentence needs at least one **finite, independent** clause.

A **simple** sentence is composed of **only one finite** clause

Examples of one-clause sentences:

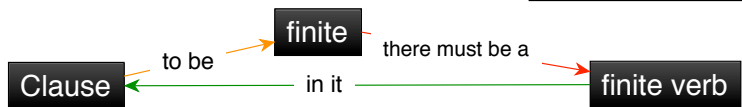

- I have just telephoned Mohammed.
- He was my best friend.
- This is his photograph.
- At nine o'clock, we all gathered in the classroom.
- He always does his work perfectly.

Predicate is what is said about the **subject**.

❖ Verb Phrase (VP)

consists of
Note: one of them ONLY

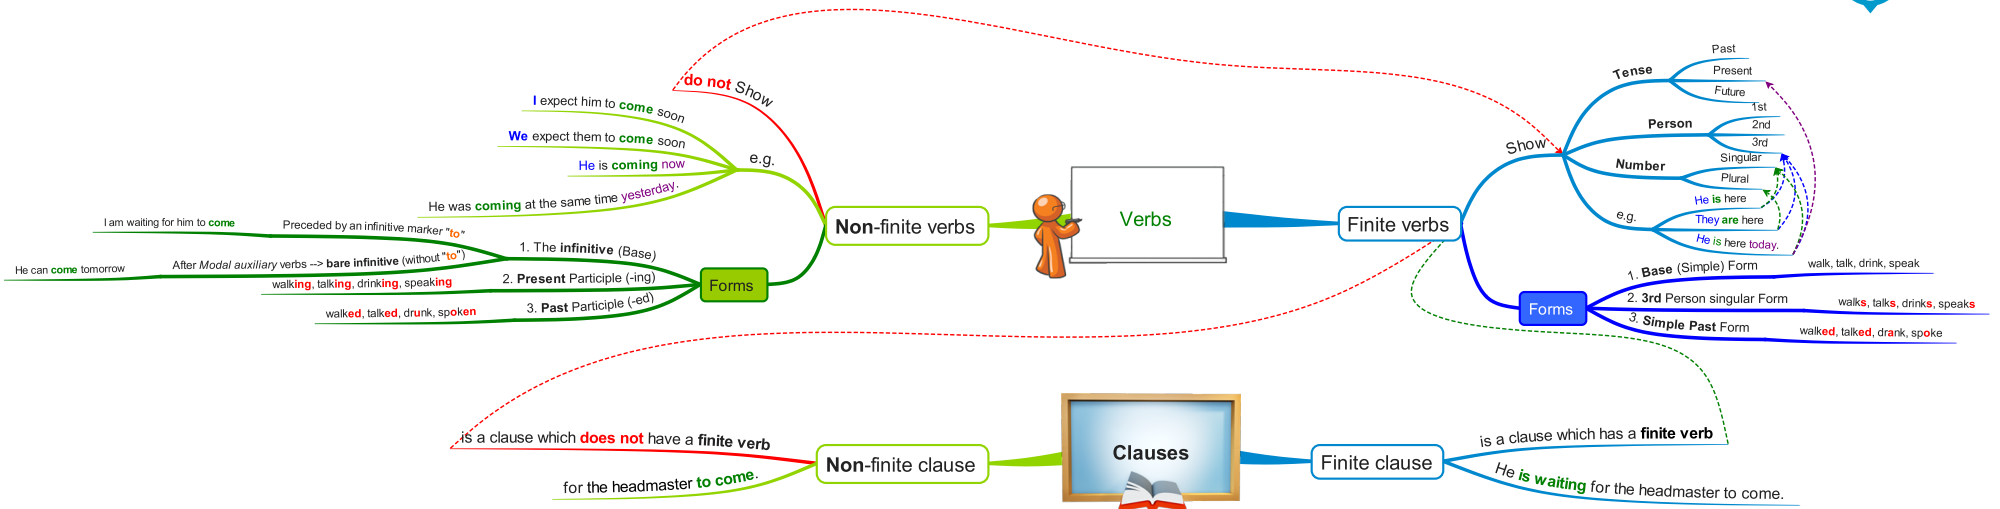

☀ **Verb can be either:**

☀ **Simple verb** consists of **one word**.

is, was, walked, sat, did

☀ **Complex verb** consists of **verbal group**.

have telephoned, were placed, were waiting, did not like, could see

At least one clause in an English sentence must be **finite**.

Lecture 6

❖ Form and Function

☀ **Form** is what the word/phrase/clause look like. N, V, NP, VP, relative clause

☀ **Function** is the "job" of the word/phrase/clause in a sentence. S, V(Predicator), Direct Object, Complement

A **complement** is a word/phrase/clause that completes the meaning of another word/phrase/clause.

It is necessary for the meaning to be complete.

Notes

تكملة كيف الفرق بين (Complement of Object) و (Indirect Object) العنصرين بإعادة ترتيب الجملة واستنباط مفهومها الأصلي.

Note: When the **complement** is a **noun**, it must agree with the **subject** in **number** and **gender**

Ahmed is *their* uncle. (not "uncles" or "aunt")

Sarah and Huda are *their* aunts. (not "aunt" or "uncles")

is called

Copula: something that joins things together

Prepositions normally followed by a NP → called the **Object of the Proposition**

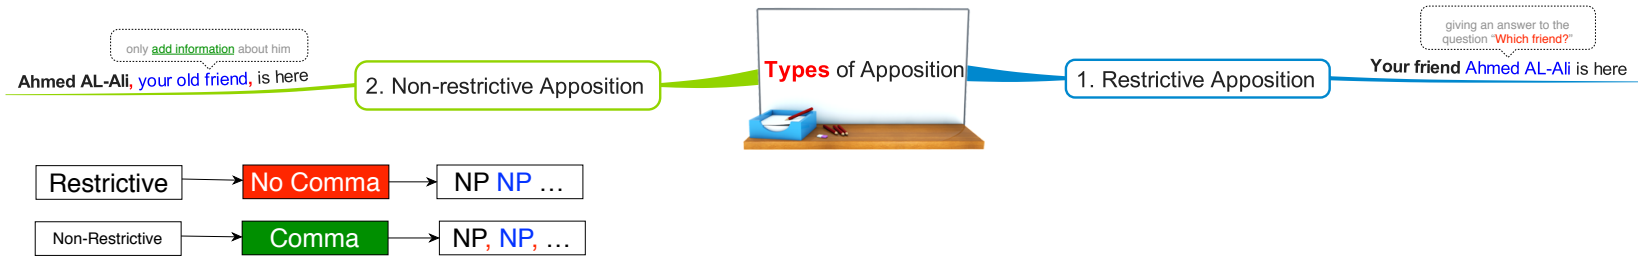

Appositive is a NP that describes the **same** person or thing as another NP that came **before** it.

Lecture 7

❖ Types of Apposition

❖ Prepositional Phrase (PP)

A **Prepositions** normally comes before an NP, **but** it can also be separated from its NP as in:

The man is standing on the platform. **What is the man standing on?** The platform that the man stood on was very narrow.

* Function of the PP:

Adjunct • is a word/phrase/clause that provides **additional** information about another noun/phrase/clause.

• It is **not a necessary part** of the structure of a sentence.

• are usually **adverbials**: **is a group of words that does the same job as an adverb.**

can be used to say

- when**: The man stood on a high platform. (adverbials of place)
- where**: I finished the exam in one hour. (adverbials of time)
- how**: He finished it with little effort. (other adverbials)

something happened.

Notes

Complement: is **necessary** for the meaning to be complete.

Adjunct: is **not necessary** for the meaning to be complete.

Post-modifier in an NP

We could replace (The desk in the classroom) with (it)

نستخدم هذا الطريقة حتى نعرف إذا كانت PP جزء من NP، بمعنى أي قدرنا نضحي بـ NP وأصبحت الجملة صحيحة فهي NP

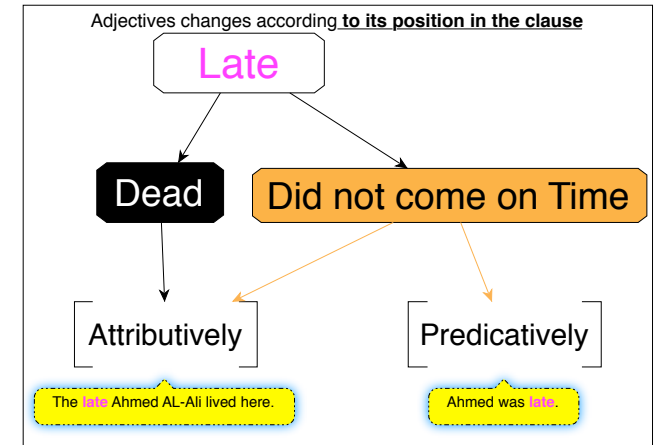

Lecture 8

❖ Adjectives

Adjectives are words which we use to describe people, things, events... etc

refer to a permanent characteristic He is a very healthy old man. The old man is healthy .	Both	important			
	ONLY attributively	main	principal	chief	The main reason is ... The reason main ...
refer to a temporary condition The old man is sick today	ONLY predicatively	afraid	asleep		My brother is asleep . Asleep my brother here.

* Adjective Phrases

Adjective Phrases are composed of an adjective, a modifier, and a complement.

Gradable Adjectives

Gradable Adjectives are adjectives that express a **condition** or **quality** of which there are **degrees**.

Some adjective like "complete" are not gradable. They are not normally compared, nor modified by "very", "too" or "enough".

Shape, Size

round, tall big, narrow can only modify count nouns. This is a **big** building.
cannot modify mass nouns. This is ~~big~~ water.

Function of Adj Phrases

5. Head of a Nominal Group:

A. refer to a **class of people** {blind, homeless, poor, wealthy, young, elderly, living, dead, ...etc}

We gave money to the poor. (the class of people who are poor)
The wealthy must help poor people in our society. (the class of people who are wealthy)
The young are our hope for the future. (the class of people who are young)

B. refer to **abstract** ideas

The unexpected happened.
The unknown is frightening.

C. refer to the **people of a country**

The English are very polite. (the people of England)
The French are very interested in fashion. (the people of France)

التفريق بين Modifiers والComplement

إذا أردنا التفريق بين Modifiers والComplement نستطيع أن نبعدها من NP من ضمنها الصفة في حالة Modifiers ويستبدلها باسم آخر.

مثال: My very good friend is coming to visit me.

نستبدل ما تحته خط بـ He فتصبح الجملة:

He is coming to visit me.

Lecture 11

❖ Coordination

Conjunctions are words like “and,” “or,” and “but” which we use to **connect** grammatical units/elements in a sentence.

If we combine more than two parts, we usually separate the parts **by commas**, using the conjunction to join the **last two parts only**.

Mohammed, Ahmed **and** I are good friends.

_____, _____ **and** _____

* Types of Coordinations

* Coordination of Word

Coordination can link two or more words of the **same word class**

* Coordination of Phrases

Two or more phrases of the **same type** can also be linked together through coordination

* Coordination of Clauses

A **compound sentence** has **two or more clauses** which are linked by a **coordinator**.

Everyone was in the room **and** the doors had been closed. _____ **and** _____.

Everyone was in the room, the doors had been closed **and** latecomers had to wait outside. _____, _____ **and** _____.

Some students didn't do the homework **and** the teacher knew, **but** he didn't say anything. _____ **and** _____, **but** _____.

Either he didn't bring the book, **or** someone took it from him. **Either** _____, **or** _____.

I'm selling my car **and** (I'm) buying a new one. _____ **and** (S) _____.

Mohammed is going on a trip for a few days, **but** (he) will be back before Saturday. _____, **but** (S) _____.

He may have received the letter **but** (he may have) forgotten to reply. _____ **but** (S VG) _____.

when the **subjects** of the two clauses refer to the **same person or thing**, the **second subject can be deleted**.

We can also **delete** the second **verbal group** if it is the same.

ملاحظة مهمة جداً للتفريق بين الجملة المركبة والبسيطة
 الجملة المركبة: لازم يوجد فيها أكثر من فاعل وأكثر من فعل **يشترط**.
 أما الجملة البسيطة: ليس من الشرط أن يحصل هذا التساوي (يعني أوقات يكون عندي أكثر من فاعل ولكن يجمعهم فعل واحد أو فاعل واحد يكون له أكثر من فعل).

Notes
 Optional (can be deleted)
 Obligatory (cannot be deleted)

Lecture 12

❖ Subordination

A **complex sentence** has two or more clauses joined by a **subordinating conjunction**.

At least one of the clauses is **subordinate** to a main clause.

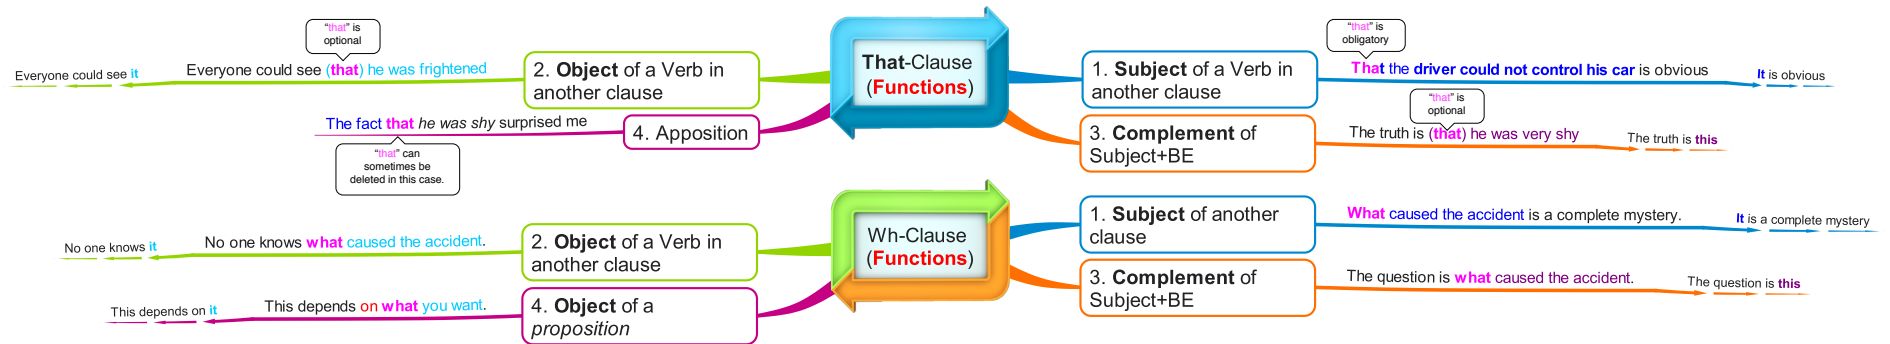

A **main clause** (also known as an **independent clause**) is a clause that **can stand alone** as a complete sentence.

A **subordinate clause** (also known as a **dependent clause**) is a clause that **cannot stand alone** as a complete sentence.

الربط	عدد الفقرة (clause)	نوع الجملة
لا يوجد	(فقرة واحدة – one clause)	بسيطة simple
Coordinating Conjunctions: من خلال: Correlative Coordinating Conjunctions أو (حروف عطف تنسيقية – حروف عطف تنسيقية متلازمه)	(فقرتين أو أكثر – two clauses or more)	مركبة compound
Subordinating Conjunctions: من خلال: Correlative Subordinating Conjunctions أو (حروف عطف تبعية – حروف عطف تبعية متلازمه)	(فقرتين أو أكثر – two clauses or more)	معقدة complex

* Subordinate Clause

❖ Reported Speech

Direct speech is quoting the actual words spoken by someone.

“Quotation marks”

The man says, “The road is closed.”

Indirect speech is restating the words spoken by someone.

use a “that-clause”

The man says (that) The road is closed.

Lecture 13

❖ Relative Clauses

A **relative clause** is a clause which mainly modifies a NP.

It usually begins with a relative pronoun:
"who", "whom", "whose", "which" and "that"

The car **which he owns** is very old.

Sometimes the **relative pronoun can be deleted** (zero relative pronoun)

The car **he owns** is very old.

The man **who called us yesterday** has come to meet you.

A. **Personal Relative Pronouns** are used with **human** antecedents.

There is a man outside **who wants to see you.**

(There is a man outside. The man wants to see you.)

Ahmed, **who/whom I told you about yesterday,** is here.

(Ahmed is here. I told you about Ahmed yesterday.)

B. **Non-Personal Relative Pronouns** is used to talk about **animals, objects, places, ideas... etc.**

I want a watch **which is waterproof.**

C. **Personal and Non-Personal Relative Pronouns**

There is the driver **that was speeding.**

("that" used with the personal antecedent "driver")

There is the car **that was speeding.**

("that" used with the non-personal antecedent "car")

Note: "Whose" gives the idea of possession.

The man **whose car you borrowed** wants to see you.

(The man wants to see you. You borrowed his car.)

We saw the castle **whose walls were made of rocks.**

(We saw the castle. Its walls were made of rock.)

معلومة مهمة

1. عند العمل على هذه الأسئلة يجب تحديد ما هو عمل R.PN في الجملة.
2. R.PN دائماً توكّد في الجملة Head في NP.
3. إذا R.PN غير ضرورية في الجملة ويمكن الاستغناء عنها.

❖ Adverbial Clauses

allow us to talk about time, place and manner.

I met Ahmed in 2005.

(adverbial phrase of time)

I met Ahmed when I was travelling.

(adverbial clause of **time**.)

He parked his car here.

(adverb of place)

He parked his car where there is a parking sign.

(adverbial clause of **place**.)

He drives carefully.

(adverb of manner)

He drives as his father did.

(adverbial clause of **manner**.)

Function → is an **adjunct**

Notes
when, where, as
are Subordinate Conjunctions.

* Other Adverbial Subordinate Clauses

Conditional Clause

Please return my book if you finish reading it.

Comparison Clause

Ahmed is quicker than I am.

Reason Clause

I couldn't open the door because I used the wrong key.

Purpose Clause

He closed the windows so that he wouldn't hear the noise outside.
