Advantage of big college

Big college gives lot of facilities ;therefore , we have a various of tools to choose from. There is a big chance to meeting people from different nationality . There is a big campusFrom my point I think that small colleges best than big colleges for meny reasons, most important, the number of students in small colleges less therefore it will be Easier to make friends more, and also will be the number of students in each class is less so this make it easier for them to work together and communicate with their professorsthe

professors can adopt their courses to the students' concerns and build an interactive educational environment. so Small colleges have an advantage in communicating , Multiplicity of programs in college because the size and number of students is small and will be easy to have several means of education in college .

### Advantages of large college

The large college is very important than a small college, because it have many different course and facilities. In addition, I prefer this kind of college. When I attend a large college, I can learn several things.

All the example posts we present here require editing. What that means is that there are some mistakes that need to be corrected or things that could be said in a better way.

.....

**Example 1:**

in my opinion i dont think its right or either wrong if they didnt know that the mony belong to the bank

then they can take it but they should ask to who the money belong to

but if they know that the money belong to the bank they shouldnt take it even if the bank was bonanza

.....

Example 2:\

It's an amazing cash bonanza. But I think it's wrong to take money unlawfully.

In my opinion the motorists should return the money to the bank. Because of the money in fact belong to others of people, not to the bank. Actually the banks insured the money of the people, to use it any time.

I think the motorists shouldn't take the money because any person shouldn't take something don't belong to him or her.
