academic life around the world

this is our first chapter

first of all the doc said the meanings for 2 words

compass: the area of university or college lobby: it's an enters area for a building

When we someone for the first time we may say hi, hello,
 nice to meet you or where are you from.

but the questions not enough, we should use the body language.

probably we shacked our hand or put your hand on his shoulder << men do it more than women

Now try to answer the first exercise it's like the one in the book but with different words

Pronunciation

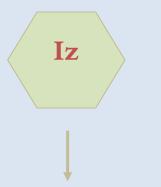

The final s or the s ending

We use it

- When we talk about 3 person
- The plural
- For possessive

And it's not the same pronunciation it's different from words to another.

And we have 3 sounds for each ending litter

S

we say that
sound when the
word ends with
ch - sh - x - z

we say that sound when the word ends with k-f-t we say that
sound when the
word ends with
g-b-d-v

اخر شي بالمحاظره الي هو شلون تعرف نفسك للناس او انك تعرف صديقك ع احد ثاني

- introducing others :
 - by saying /
