

Lecture 1

We're going to start with tag question

We often use it when we start any conversation.

It's a regular sentence, but when we add a tag it become a question

For e.g. : the weather is too cold , isn't it ?

As u see we add (,) when we finish our sentence and before we start our tag Q .

Note: If the sentence is affirmative the tag Q will be negative , and if the sentence is negative the tag Q will be affirmative .

For e.g. : isn't very windy today , is it ?

And that's it

See you in the next lecture
