- **the oral translation of a message across a cultural and linguistic barrier**
- the communicative translation of a message across a cultural and linguistic
- the translation of a message into another language

23) Segment matches such as an exact match,a full match and a fuzzy
- exist computer-aided translation
- **exist in translation memory technology**
- exist in machine translation
- exist in literal translation

24) Word-for-word translation
- a free translation
- a figurative translation
- a grammatical translation
- **an interlinear translation**

25) translations can be stored in a data base and recycled by the

- a computer software programme

- the translators technical memory

- **translation memory technology**

- computer-aided technology

26) Semiotics is the study of how people use and understand

- **signs**

- cultures

- languages

- texts

27) Free translation mainly involves

- paralanguage

- overphrasing

- underphrasing

- **paraphrasing**

- the study of source texts

- the study of target text
- **the study of of translated texts**
- the study of the translators interpretation of texts

32) according to Dryden (1631-1700) metaphrase type of translation means
- where the translator can translate communicatively and semantically at the same time
- **turning an author word by word and line by line from one language into another**
- translating with latitude,the Ciceronian 'sense-for sense'view of translation
- where the translator can abandon the text of the original as he sees fit

33) Interpreting was used ....as a means of communication
- just after translation
- after translation
- along with translation
- **before translation**

34) Extra-linguistic problems in machine translation are more difficult than linguistic problems
- **because they are harder to codify**
- because they are harder to ratify
- because they are harder to satisfy
- because they are harder comply

35) A collocation is a sequence of words which tend to
- co-occur regularly in the target language
- **co-occur regularly in in a given language**
- co-occur regularly in the source language
- co-occur regularly in a given language

36) Machine translation involves the use of
- mechanical tools and aids
- computer machines
- **computer programmes**
- computer technology

37) Fixed expressions are frozen patterns of language,for example
- look up at the sky
- refuse to accept responsibility

- **as a matter of fact**
- the Arabic language is beautiful

38) the grammatical competence of the translator consists of
- **pronunciation,vocabulary and sentence structure**
- semantics,rhetoric and communication
- punctuations,organization and paragraph structure
- spelling,hand writing and development of ideas
