سبق و قالها الأخ الواجب ماشاء الله عليك يا AL'HARB! الله يعطيه العافية ان الدكتور راح يجيب اسئلة ((

اخوي صارت 🤔))

Cohort Model is :

consist of all the lexical items that share an initial sequence of phonemes

language is species specific is :

language is likely to be part of the genetic makeup of members of the species

universal Grammar is :

language of the world are are similar because all humans have the same language capacities

Neurolinguistic is :

the study of the representation of the language in the brain

aphasia is :

a language impairment linked to brain injury

non fluent aphasia known as :

Broca's Aphasia

fluent aphasia known as :

Wernicke's aphasia

language lateralized is :

language function is located in one of the two hemispheres

Contralateral is :

the left hemisphere controls the right side of the body and the right hemisphere controls the left side of the body

Dichotic listening experiment is :

given two different inputs to each ear at the same time

Barrowing is :

is incorporated into the lexicon of another language

unilingual mode is :

only one language

bilingual mode is :

Has two language

Grammatical encoding is :

the creation of sentence structure during sentence planning

Tip of the tongue Phoneme :

the speaker knows the word but cannot retrieve it

interlocutor is : قهر خطأت هنا بس اللهم لك الحمد << 

Participate in conversation

Orthography is :

writing system

Acquisition أتذكر أنه سأل عن الـ
جاء رسمتين خطهم في المحاضرة الرابعة عشر
وحده لأجزاء المخ و الثانية لأجزاء الفم

الأشياء التي متوقع تأتي في الإمتحان أو يأتي وصفها:

Uni Languag Mode
Bilingual Mode
Code- Switching
Grammatical Encoding
Plural Attraction
Preverbal Message

هذه شرحها موجود في المحاضرات الأخيرة من المحتوى

بالإضافة إلى أسئلة الواجب (وحفظها كما هي لأن بعضها موجود حتى في الكتاب)

مثل :

Postlexical Decomposition
Prelexical Decomposition

أيضاً:

Garden Path sentence
Lexical Retrieval
Introlocutor
Language Transfer

Lateralized

معناها: جانبي

والمقصود اللغة جانبية في المخ

1-OBSTRUENTS :are sounds produced with a major obstruction somewhere in the vocal tracts

2-SONORANTS :are sounds made with no such major obstruction

all vowels are sonorants,but some consonants are obstruents and others are sonorants

A lexicon is the collection of words for a given language, and it is in the lexicon that most language specificity exists
